

Dune

Designed by the Trzop Architekci team: Arch. Bartosz Trzop, Arch. Katarzyna Chmurzyńska-Mazur, Arch. Joanna Justyńska, Arch. Eligia Gałązka-Gajowa; in collaboration with the Acustio team: Mateusz Gaczkowski, Karol Siarniewicz, and Aleksandra Mętlewicz.

A family of magnetic wall panels that allows endless creativity and offers outstanding acoustic and visual performance. Inspired by the rhythm of nature, the collection began with a single wave-like form and evolved into seven visual lines – from organic to geometric.

DUNE FAMILY

WORKS BEST IN: Conference Room, Chillout Room, Reception

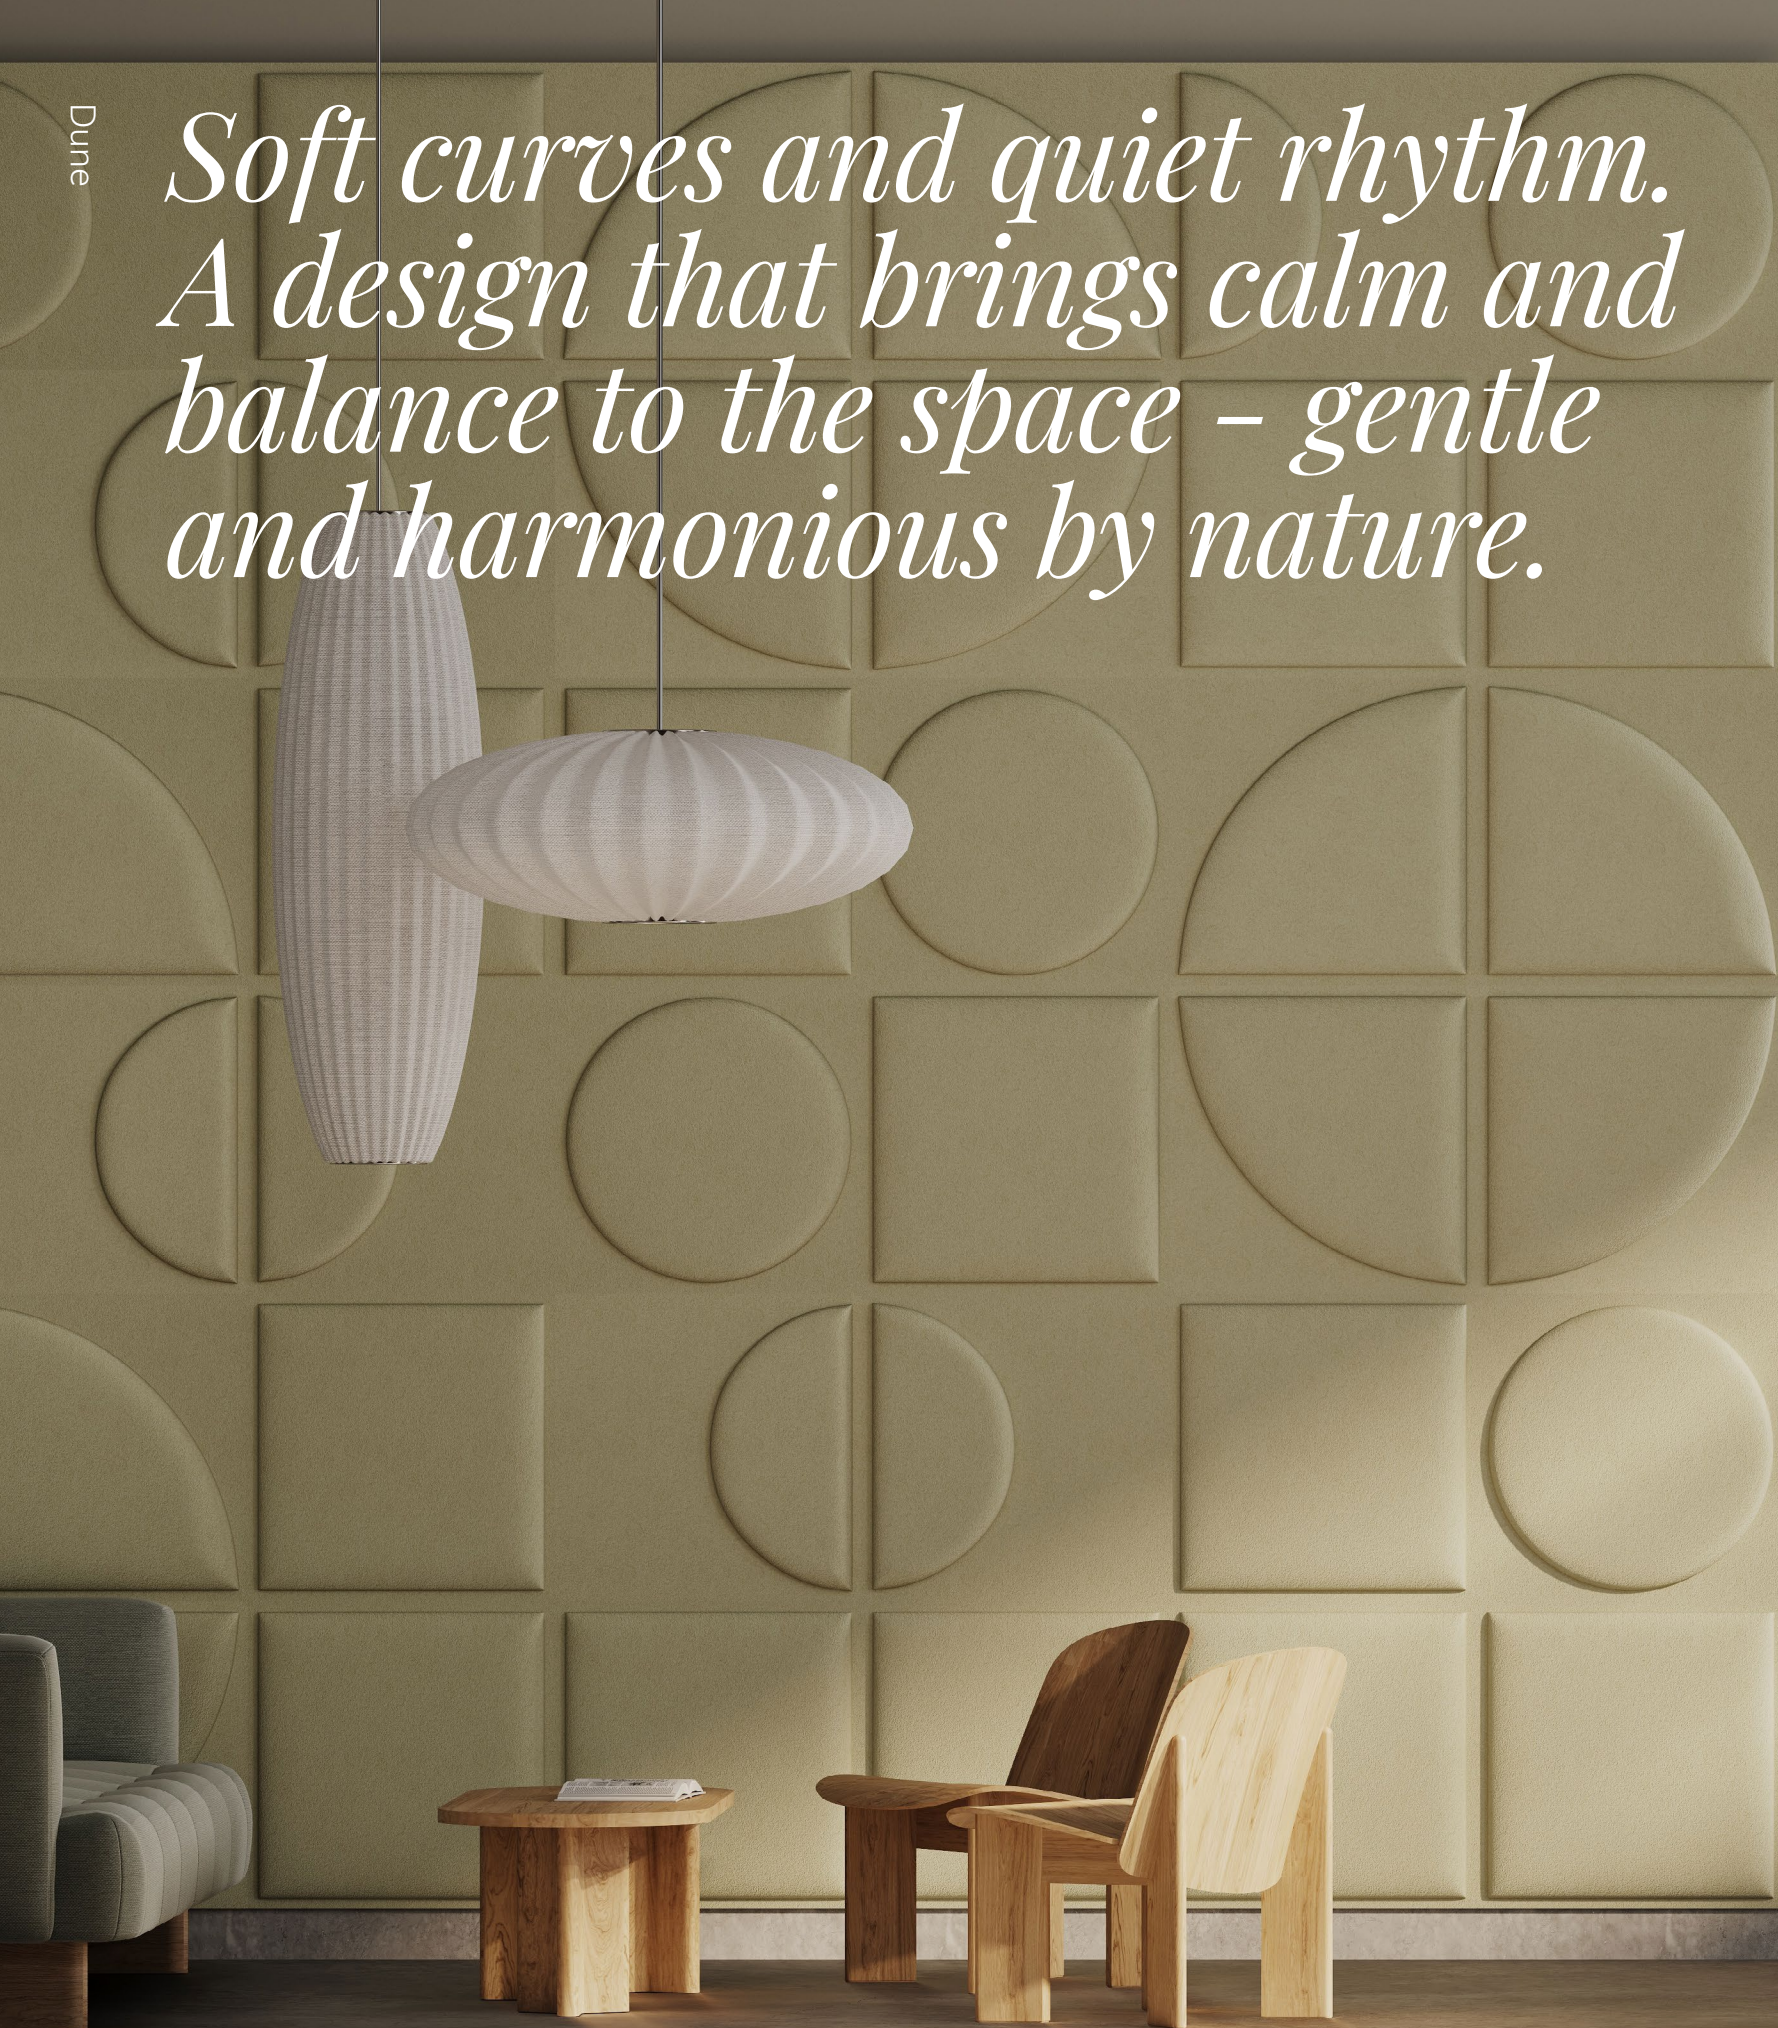

Wall

KEY CHARACTERISTICS

- 60 × 60 cm modular panels - seven visual styles (A–G)
- Mounted with hidden magnets - reconfigurable anytime, no tools required
- Signature 3D patterns - from flowing curves to sharp geometry
- 100% natural wool felt - sustainable and refined
- 75 colors in 2 wool categories - endless design combinations
- Compatible with NanoFelt™ Ag-silver-particle microbial protection
- Triple-layer felt - advanced sound absorption, Class D certified

*Soft curves and quiet rhythm.
A design that brings calm and
balance to the space – gentle
and harmonious by nature.*

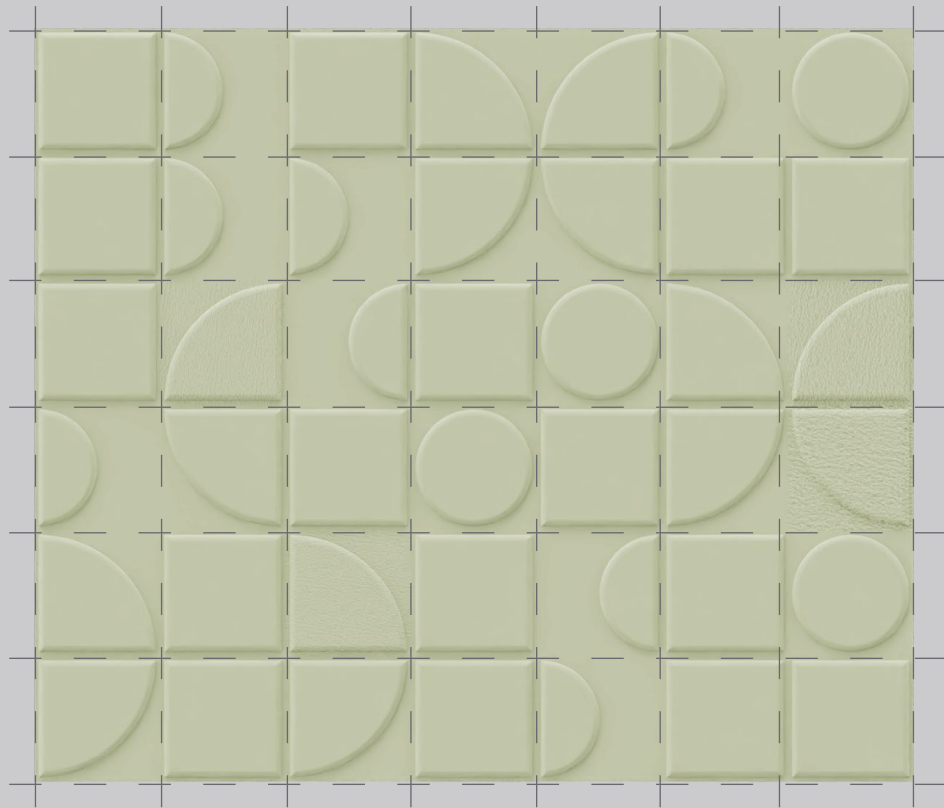

FILL YOUR WALL SEAMLESSLY

Thanks to their modular construction and precise edges, Dune panels fit together like building blocks - allowing you to create compositions that cover entire walls with structure and rhythm. Each panel is a separate element, yet together they form a cohesive surface that's both functional and visually engaging.

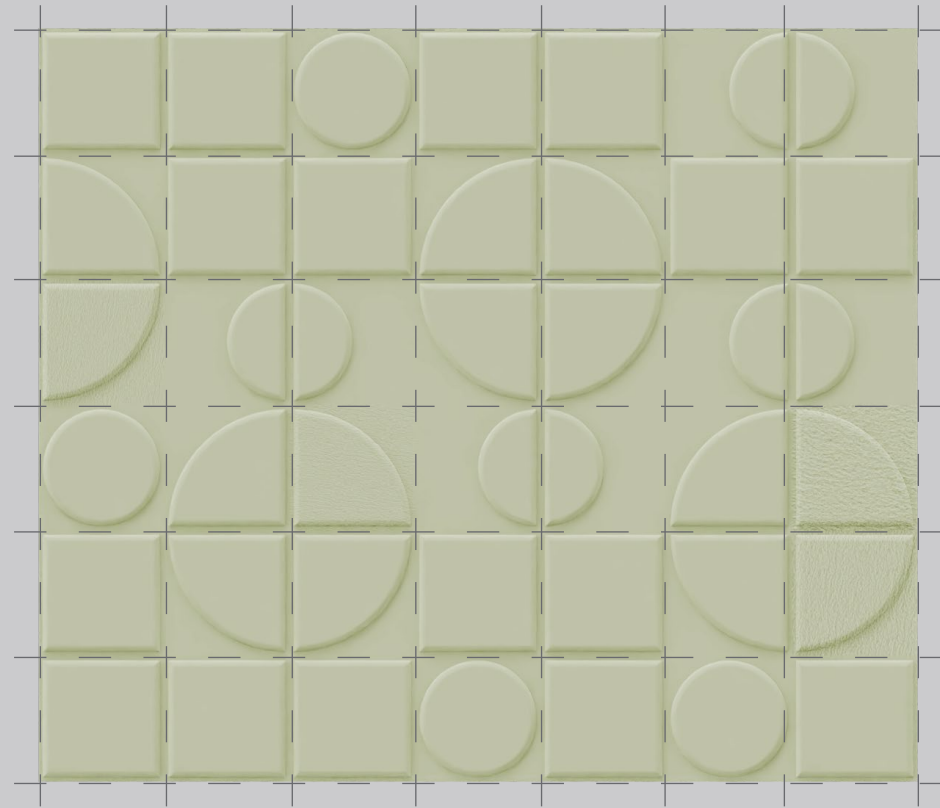

LINE A IN FOUR WAYS

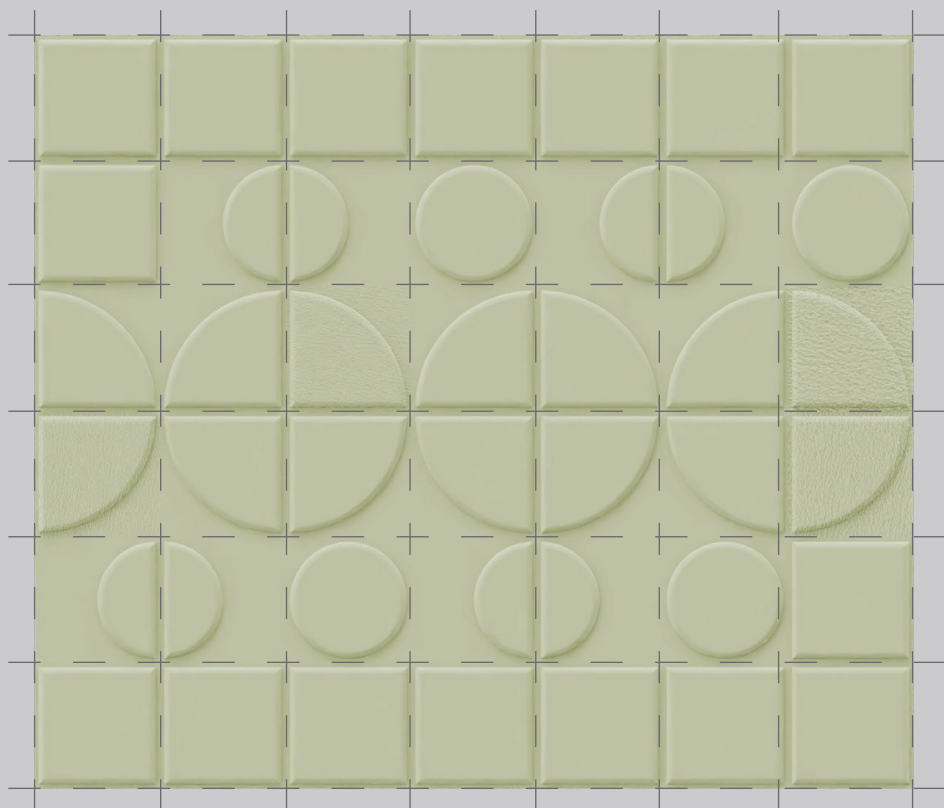

The same 42 panels arranged differently - a fresh effect each time.

11 Arrangement III

Arrangement IV

ONE PANEL. ENDLESS POSSIBILITIES.

Flip it. Rotate it. Combine it with another. Using the same panels, you can create a completely new pattern, change the atmosphere of the space, and make your wall feel brand new. All it takes is a fresh perspective.

Clear lines. Confident geometry. Perfect for structured spaces that seek contrast, order, and modern elegance.

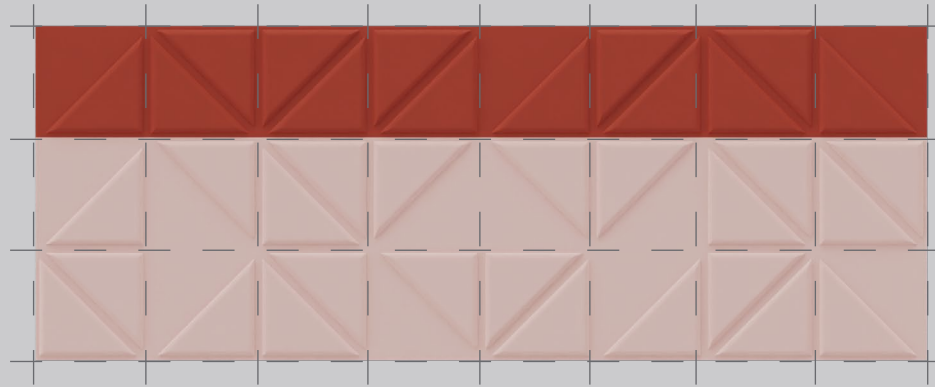

ORDER AND GEOMETRY

Defined by clean lines and rhythmic repetition, this collection brings structure and visual clarity to any interior. Its bold geometry adds a sense of confidence and calm - ideal for conference rooms, reception areas, or executive spaces that value refinement. Every Dune panel is precisely cut for seamless compositions.

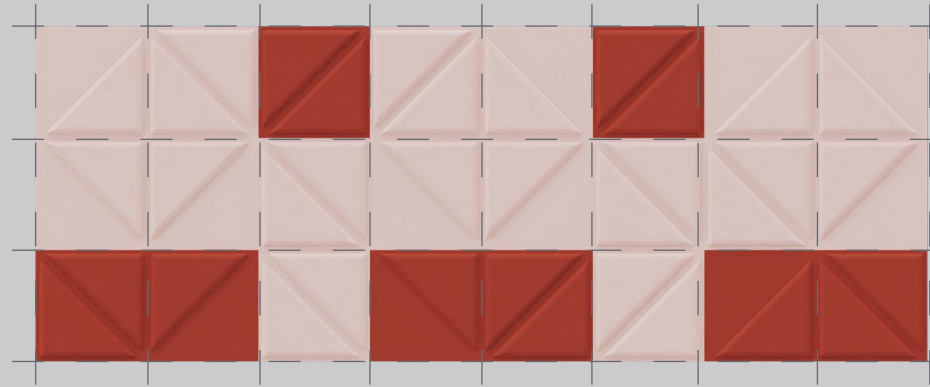

LINE B IN FOUR WAYS

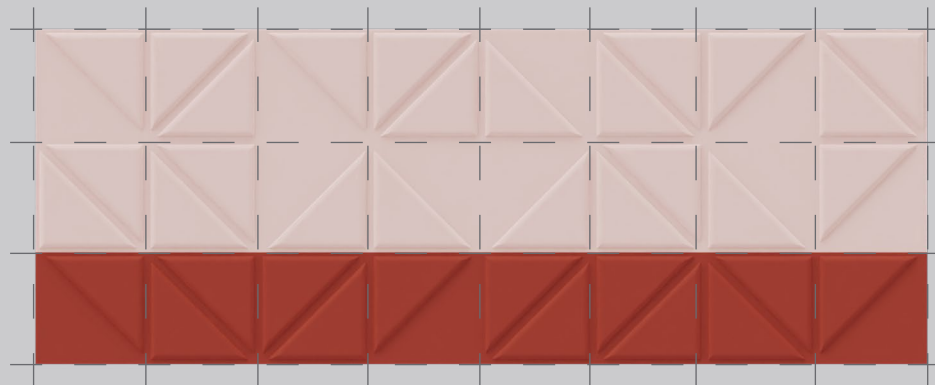

The same 24 panels arranged differently - a fresh effect each time.

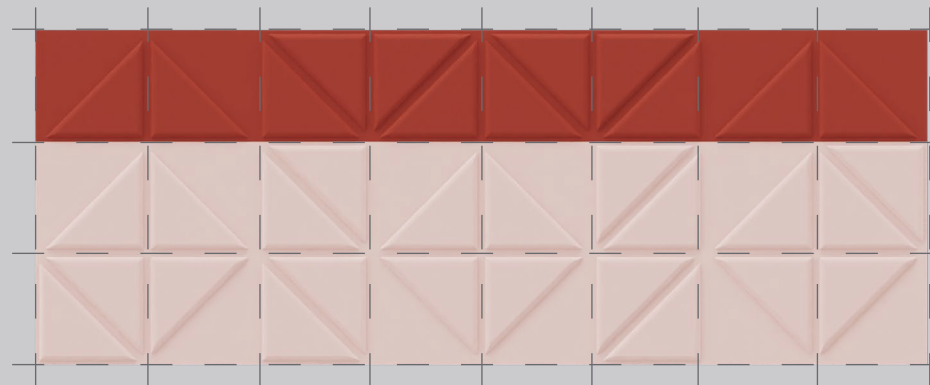

Arrangement I

Arrangement II

Arrangement III

Arrangement IV

ENDLESS POSSIBILITIES. MADE TO MIX.

Remember- with Dune, you're free to explore and create. Flip the panels. Rotate them. Rearrange them. The number of possible layouts is virtually endless, allowing you to build compositions that are as unique as the space itself.

We designed the patterns so that many lines work together- their embossed surfaces flow into one another seamlessly, giving you full freedom to shape your own visual rhythm.

*A surface in motion.
Flowing forms that rise and
fall – dynamic, expressive,
full of visual energy.*

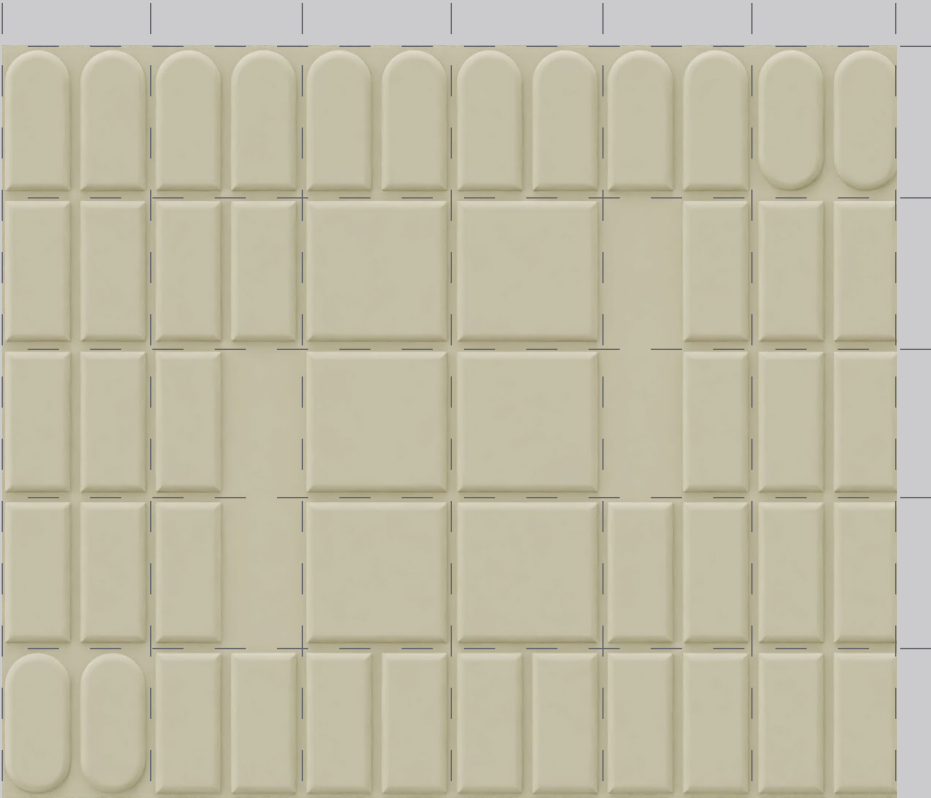

PRO TIPS - FOR BETTER ACOUSTICS AND VISUAL HARMONY

- For best sound absorption, mount horizontal layouts at around 100–120 cm from the floor- that's where most sound travels.
- Panels work best when used on two flat walls that face or meet - this helps absorb sound more evenly.
- Paint the wall behind the panels in a similar color to blend them in - or go for contrast to make them stand out.

LINE C IN FOUR WAYS

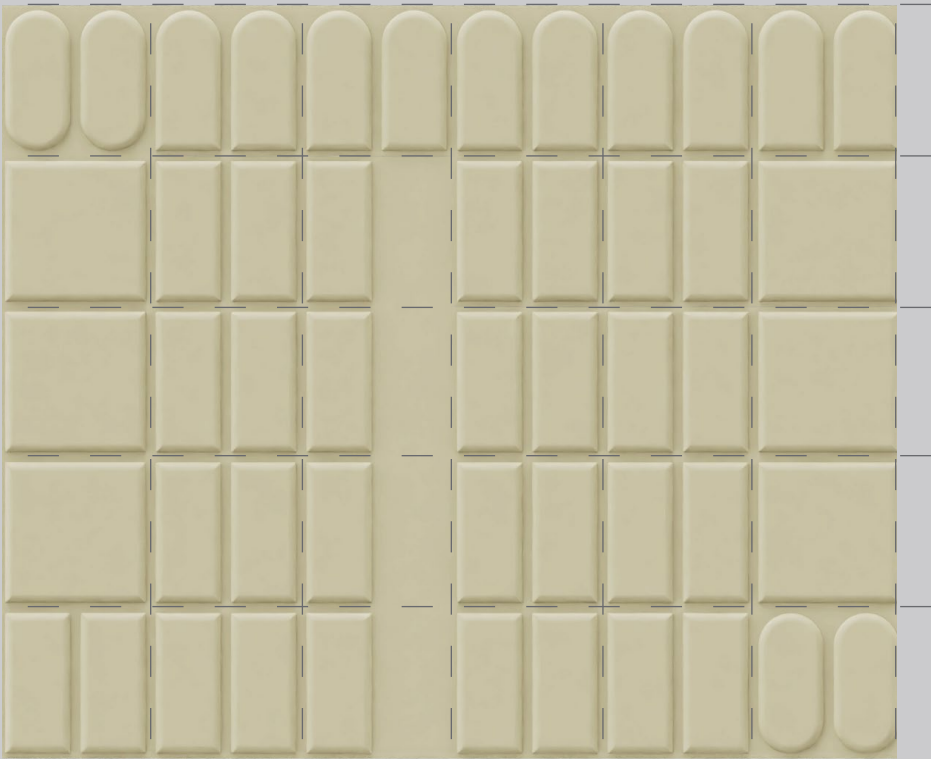

The same 30 panels arranged differently - a fresh effect each time.

Arrangement I

Arrangement II

Arrangement III

Arrangement IV

CREATE YOUR WAY

Dune was designed to give you freedom. You can use the panels to create smaller compositions that look like artworks -perfect as accents on the wall. You can also design horizontal bands that stretch across a room and bring rhythm to the space. And if you're going for impact, build a larger composition that covers most of the wall -bold, sculptural, and unique.All with the same modules. All your way.

*Waves shaped into structure.
A bold texture that feels soft
and sculptural at the same
time.*

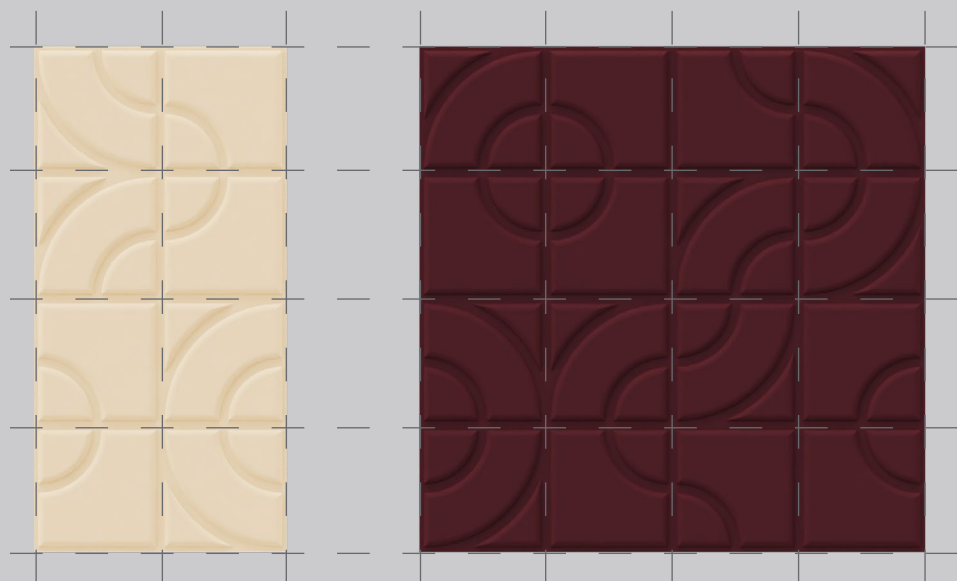

RHYTHM WITH SOFTNESS

Repetitive yet gentle, this line combines wave-like forms with a tactile structure. It adds texture to the wall - striking enough to draw attention, yet soft enough to feel natural. Perfect for spaces where professionalism meets warmth and ease.

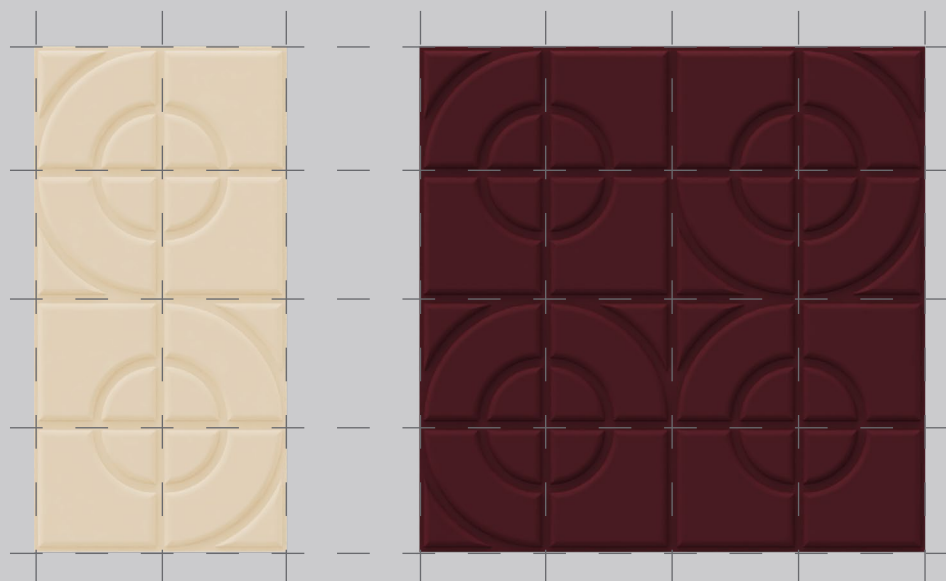

LINE D IN FOUR WAYS

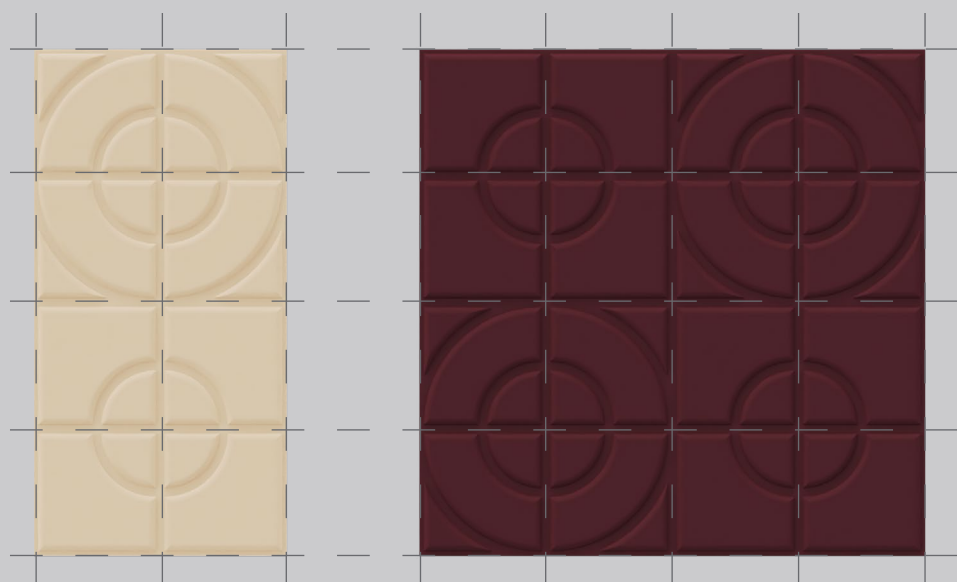

The same 24 panels arranged differently - a fresh effect each time.

MATERIAL THAT MAKES A DIFFERENCE

Dune panels are made from the highest quality wool felt, which brings out every detail of the embossed 3D patterns. The texture is beautifully defined - soft to the touch, yet sharp in form.

And to make your creative freedom truly endless, we've introduced a new wool color palette. Now you can choose from around 60 shades - from neutrals to bold tones - and mix them however you like. Your wall doesn't have to be monochromatic. You can add a subtle accent - or many accents! Get creative. Let your wall tell your story.

*Carved like a landscape.
Deep reliefs, strong lines,
and sculptural calm –
timeless and architectural.*

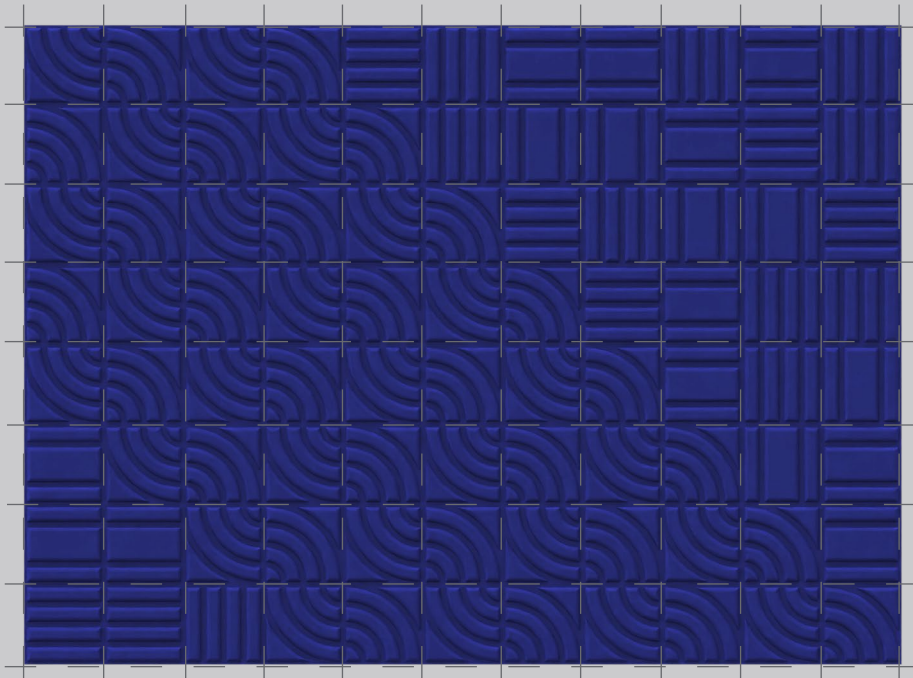

SCULPTED DEPTH

Strong symmetry, deep reliefs, and a calm, grounded look define this line. It evokes natural landscapes carved by time - solid, elegant, and timeless. A confident choice for representative spaces, executive lounges, or any area where architecture and presence go hand in hand.

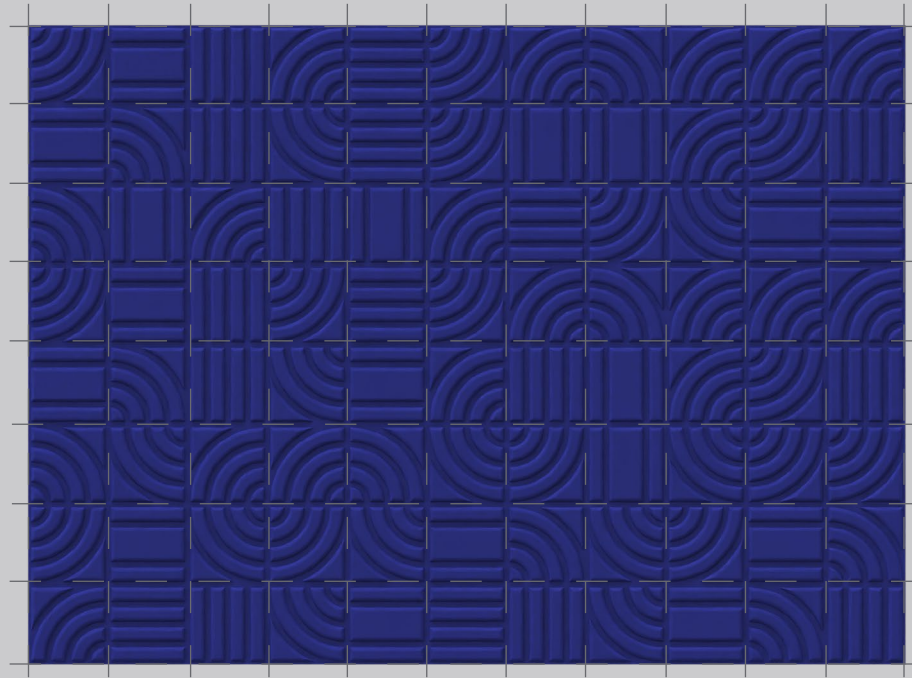

LINE G IN FOUR WAYS

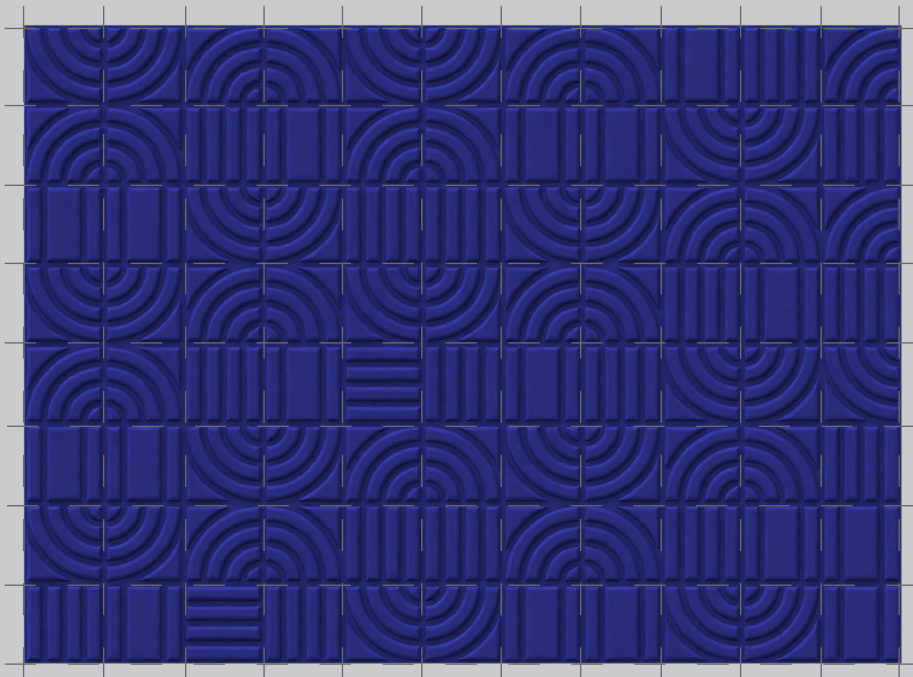

The same 88 panels arranged differently - a fresh effect each time.

DUNE - A NEW DIMENSION OF DESIGN

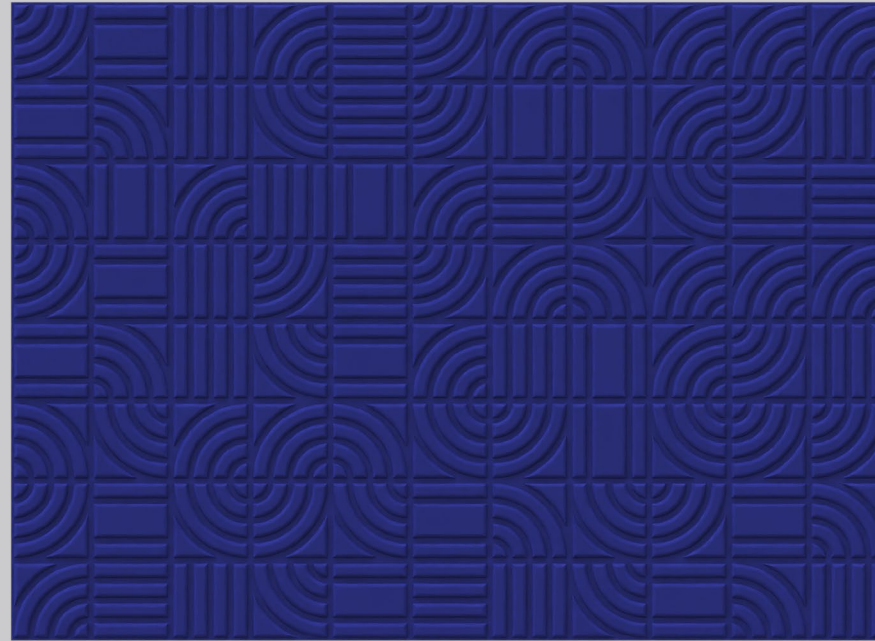

Dune is a truly unique collection that lets you transform a space using the same modular elements. From a single tile, you can create a soft, flowing wave - or shape a circle that feels like a droplet falling into water. The combinations are endless - and entirely up to you. What makes Dune even more special is its compatibility. It was designed for the most demanding clients, so it works seamlessly with our other collections. All of them are made from the same premium natural felt, which allows you to mix styles freely - and still keep your interior visually cohesive. It's consistency without monotony - elegance with personality.

COMPOSE BEYOND LIMITS.

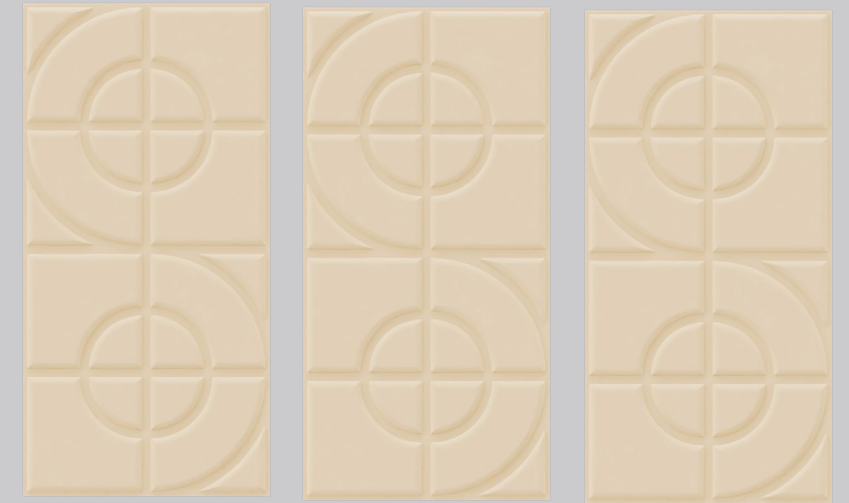

Discover how different lines blend into one story - shaped by you.

Arrangement with C,D and G lines in one colour

ONE SYSTEM. ENDLESS COMBINATIONS.

Dune was built on the idea of creative freedom. Each line in the collection has its own style- but they all share the same format and material, which means you can combine them with ease.

Here, we show a mix of lines C, D, and G - each with a distinct rhythm, yet together they form a harmonious whole.

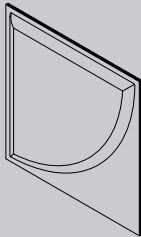

And that's just one possibility. Every Dune panel is designed to connect - visually, geometrically, and acoustically. You can build fully custom compositions, mixing shapes, textures, and even colors, to match the story of your space.
