

Heaven Booth.

Heaven Booth

designed by Mateusz Gaczowski

Improve the focus when working in a dynamic and noisy environment. Divide the space functionally and acoustically with Heaven Booth's free-standing dividers.

HEAVEN BOOTH FAMILY

WORKS BEST IN: Agile/Project Room,
Open Space, Call Center

Room Dividers

Connectable
Room Divider

KEY CHARACTERISTICS

- Modular construction - 5 panels of different size that can be connected at any angle up to 120° with only one type of adapter
- Available with feet for stability or castors for mobility
- Improved sound absorption with Acustio's own technology of 3 layers of felt
- 80 colors and 3 categories of felt (synthetic and wool) to choose from
- Compatible with NanoFelt™ Ag technology for additional microbiological protection with silver particles
- Sound Absorption - Class A
- Flame Resistance

*Designed for everchang-
ing spaces, Heaven
Booth can be endlessly
rearranged while
providing you efficient
soundproofing.*

SEVENTH HEAVEN

- 1 1st class sound absorption and reduction.
- 2 Any 2 panels can be easily connected at different angles. Overlapping edges prevent sounds from escaping through the gaps.
- 3 3 types of mounting feets – with or without castors – for stability or mobility.
- 4 4 minutes are enough to reconfigure your space and connect a series of panels into a wall.
- 5 5 different heights of panels that can be freely connected using only one type of adapter.
- 6 Total of 6 overlapping layers of felt on the connection points give the highest level of sound absorption.
- 7 7 colors are not enough? Choose from 80 colors that enable thousands of combinations.

All possibilities of Heaven Booth

- ① BEND THE EDGE INWARDS
Surround the desks from up to three sides to soundproof the workspace. Use the mini feet to save up space. Works even with a height-adjustable desk!
- ② BEND THE EDGE OUTWARDS
Easily soundproof printers and other noisy areas. Heaven Booth enables you to control the sound in you open space.

- ③ A PANEL ON WHEELS
Mobile dividers with castors make it possible to build soundproof walls for spontaneous meetings. Your walls can bend to up to 120° to accommodate your needs freely.
- ④ DIFFERENT HEIGHTS
The panels are available in five different heights and can be easily connected by using a single type of adapter.
