Filc Kategoria B
Category B Felt
Filz Stoffgruppe B

Skład surowcowy Composition Rohstoffzusammensetzung	100% Wetna / Wool / Wolle
---	------------------------------

Gęstość Density Dichte	0,25 ±10% g/m ³
------------------------------	----------------------------

Grubość Thickness Dicke	3 ±10% mm
-------------------------------	--------------

Trudnozapalność Flammability Brandschutz	MI, Une 23727
--	---------------
