

Live better. Work better.

Acustio[™]

About us

*Together we
design, create
and upgrade
the way people
live and work.
We are the
people.*

We are Acustio.

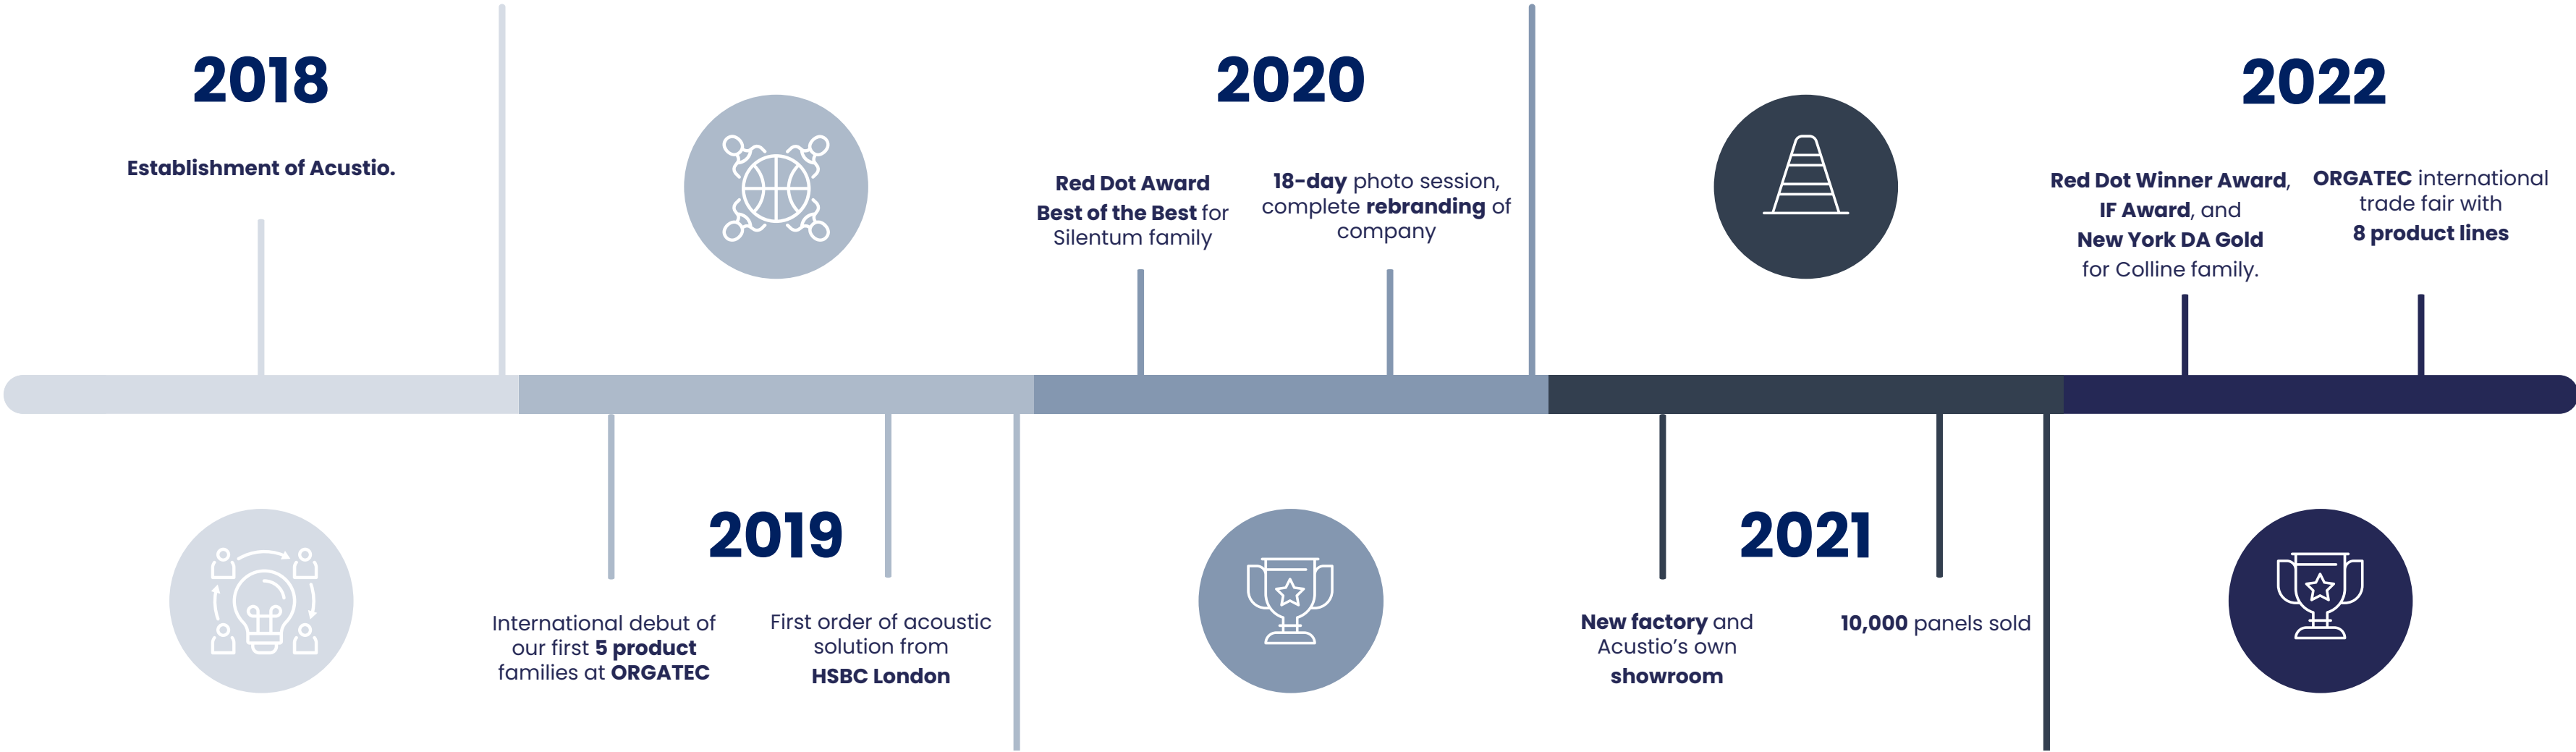

We design and manufacture acoustic furniture that brings peace and quiet to any space.

Mateusz Gaczkowski

Meet our History

Mateusz Gaczkowski
CEO Acustio

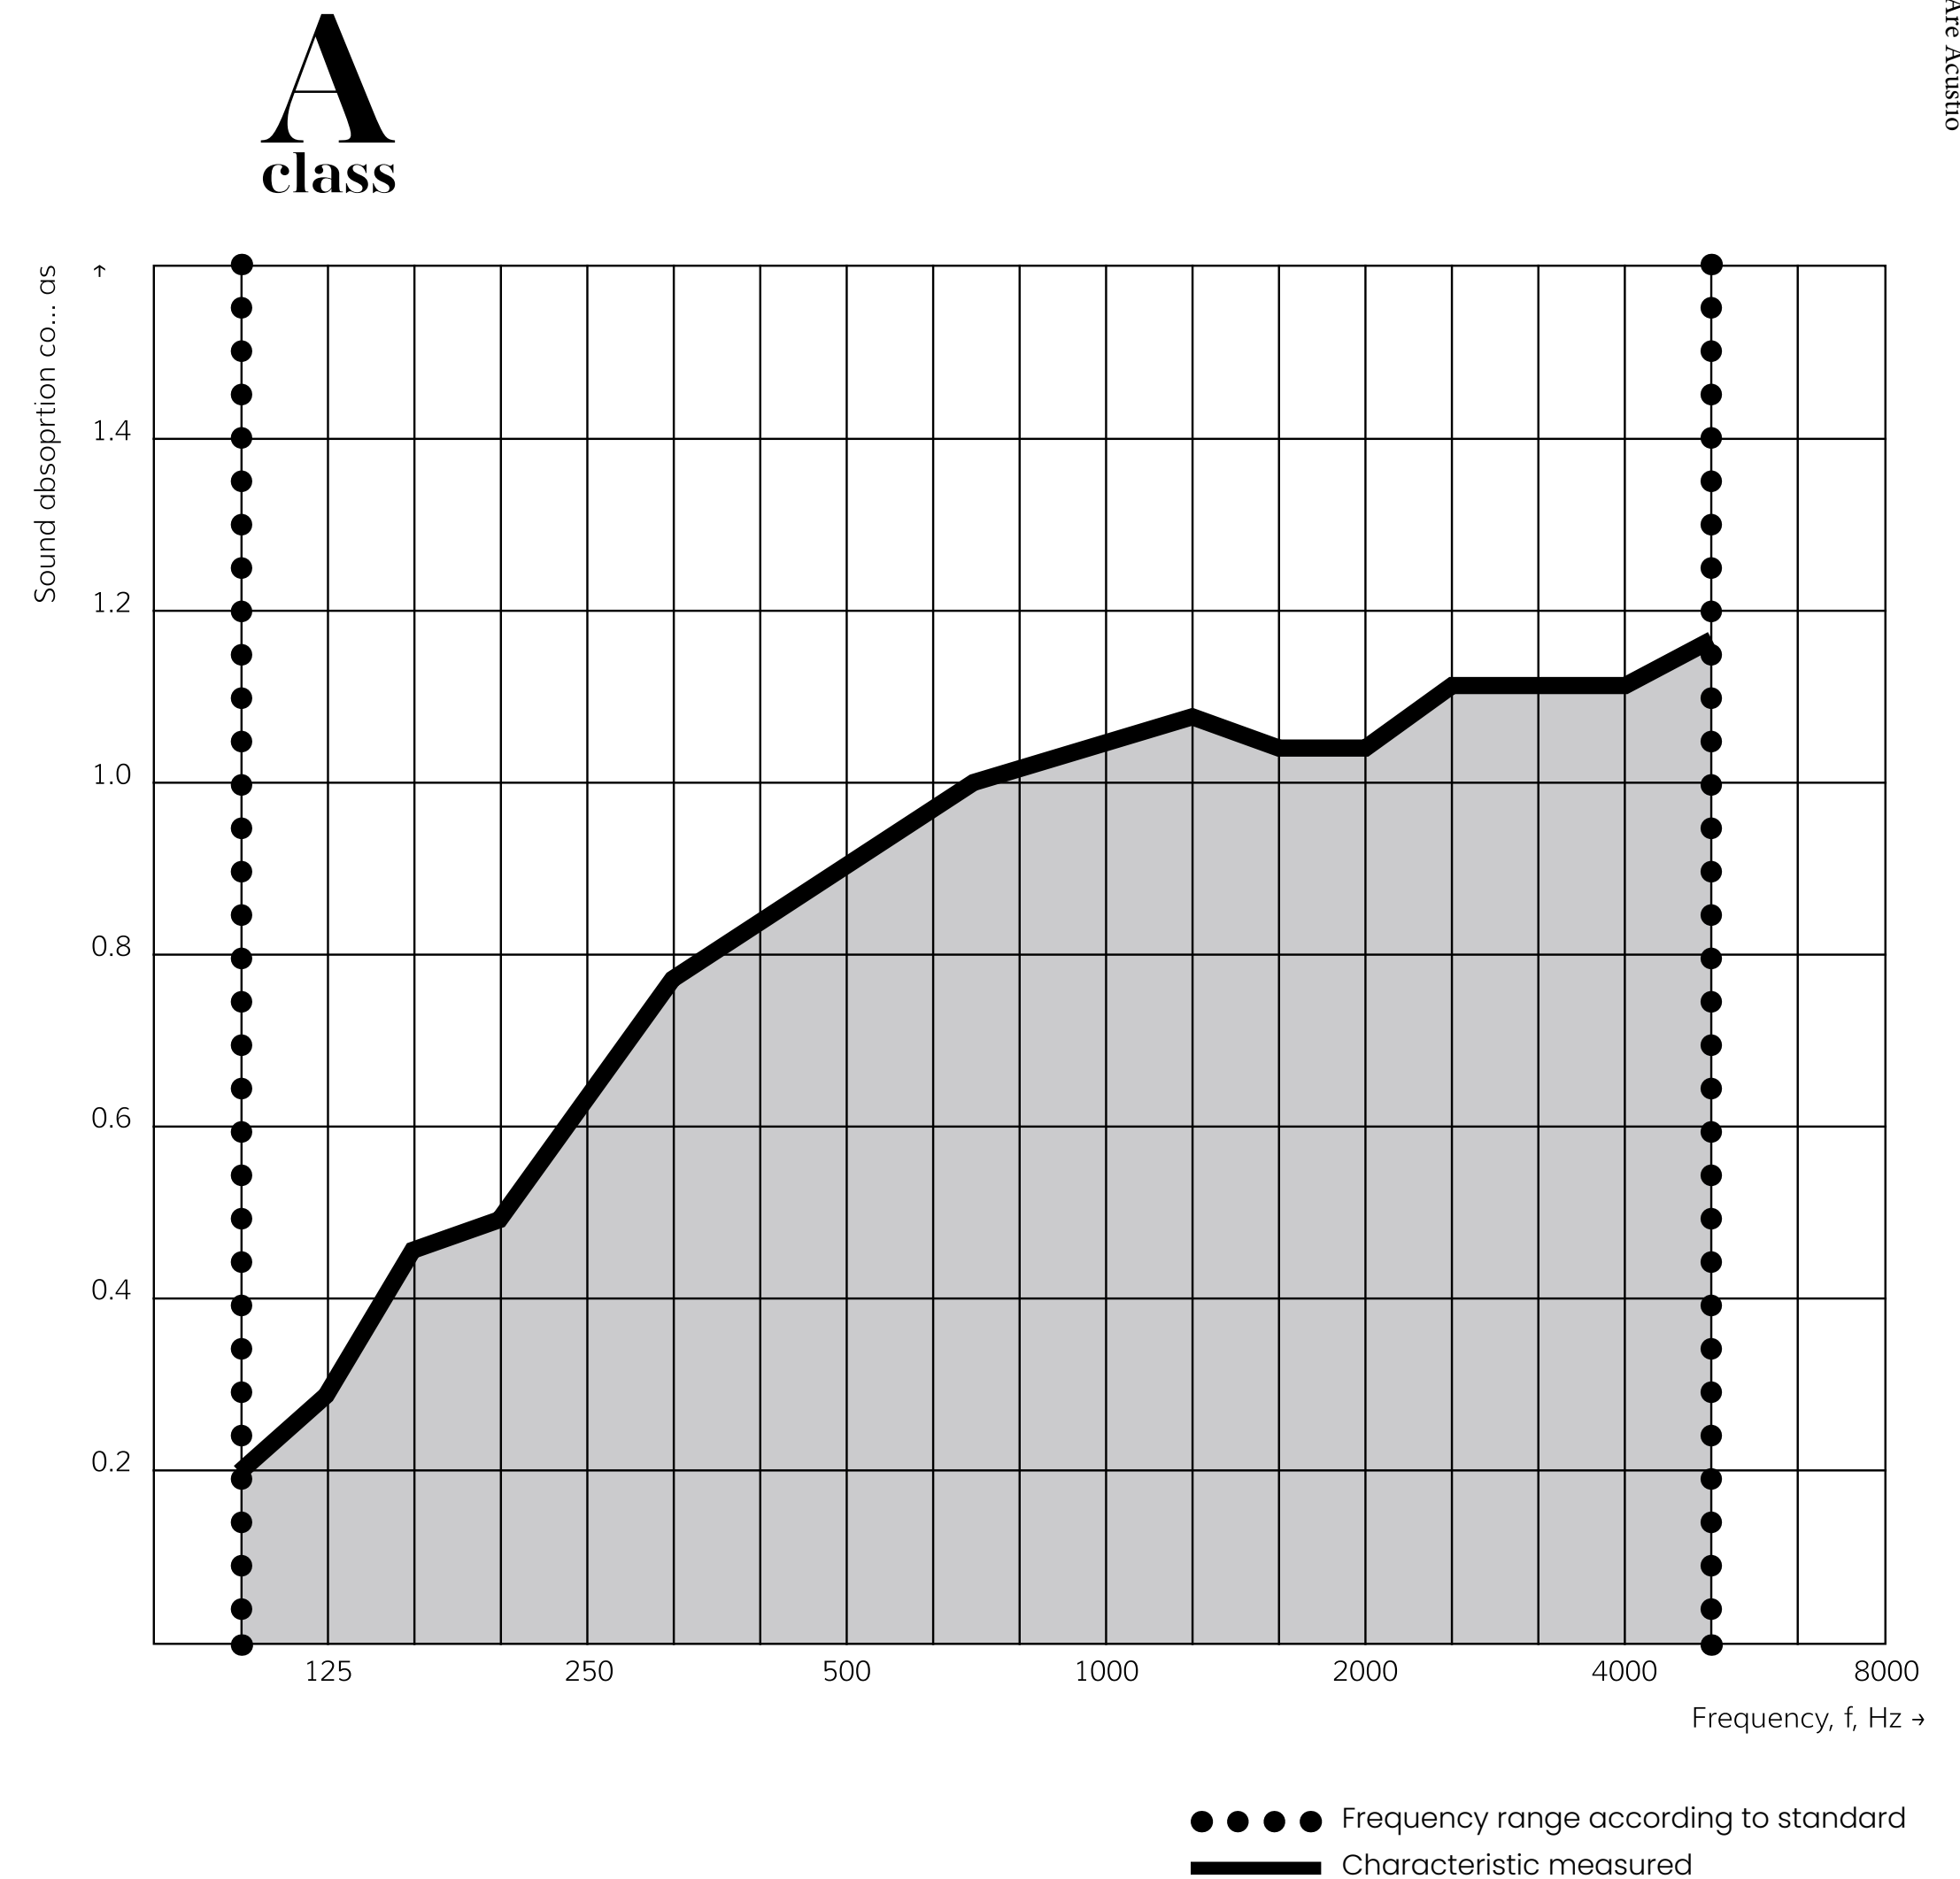

Class A is in our DNA.

*Acustio products have sound absorption certificates based on the European **PN-EN ISO 11654:1999** . It offers several key benefits:*

About Acoustics

1. Acoustic efficiency rating
2. Selection of acoustic materials
3. Improving acoustic comfort
4. Acoustic interior design
5. Noise reduction

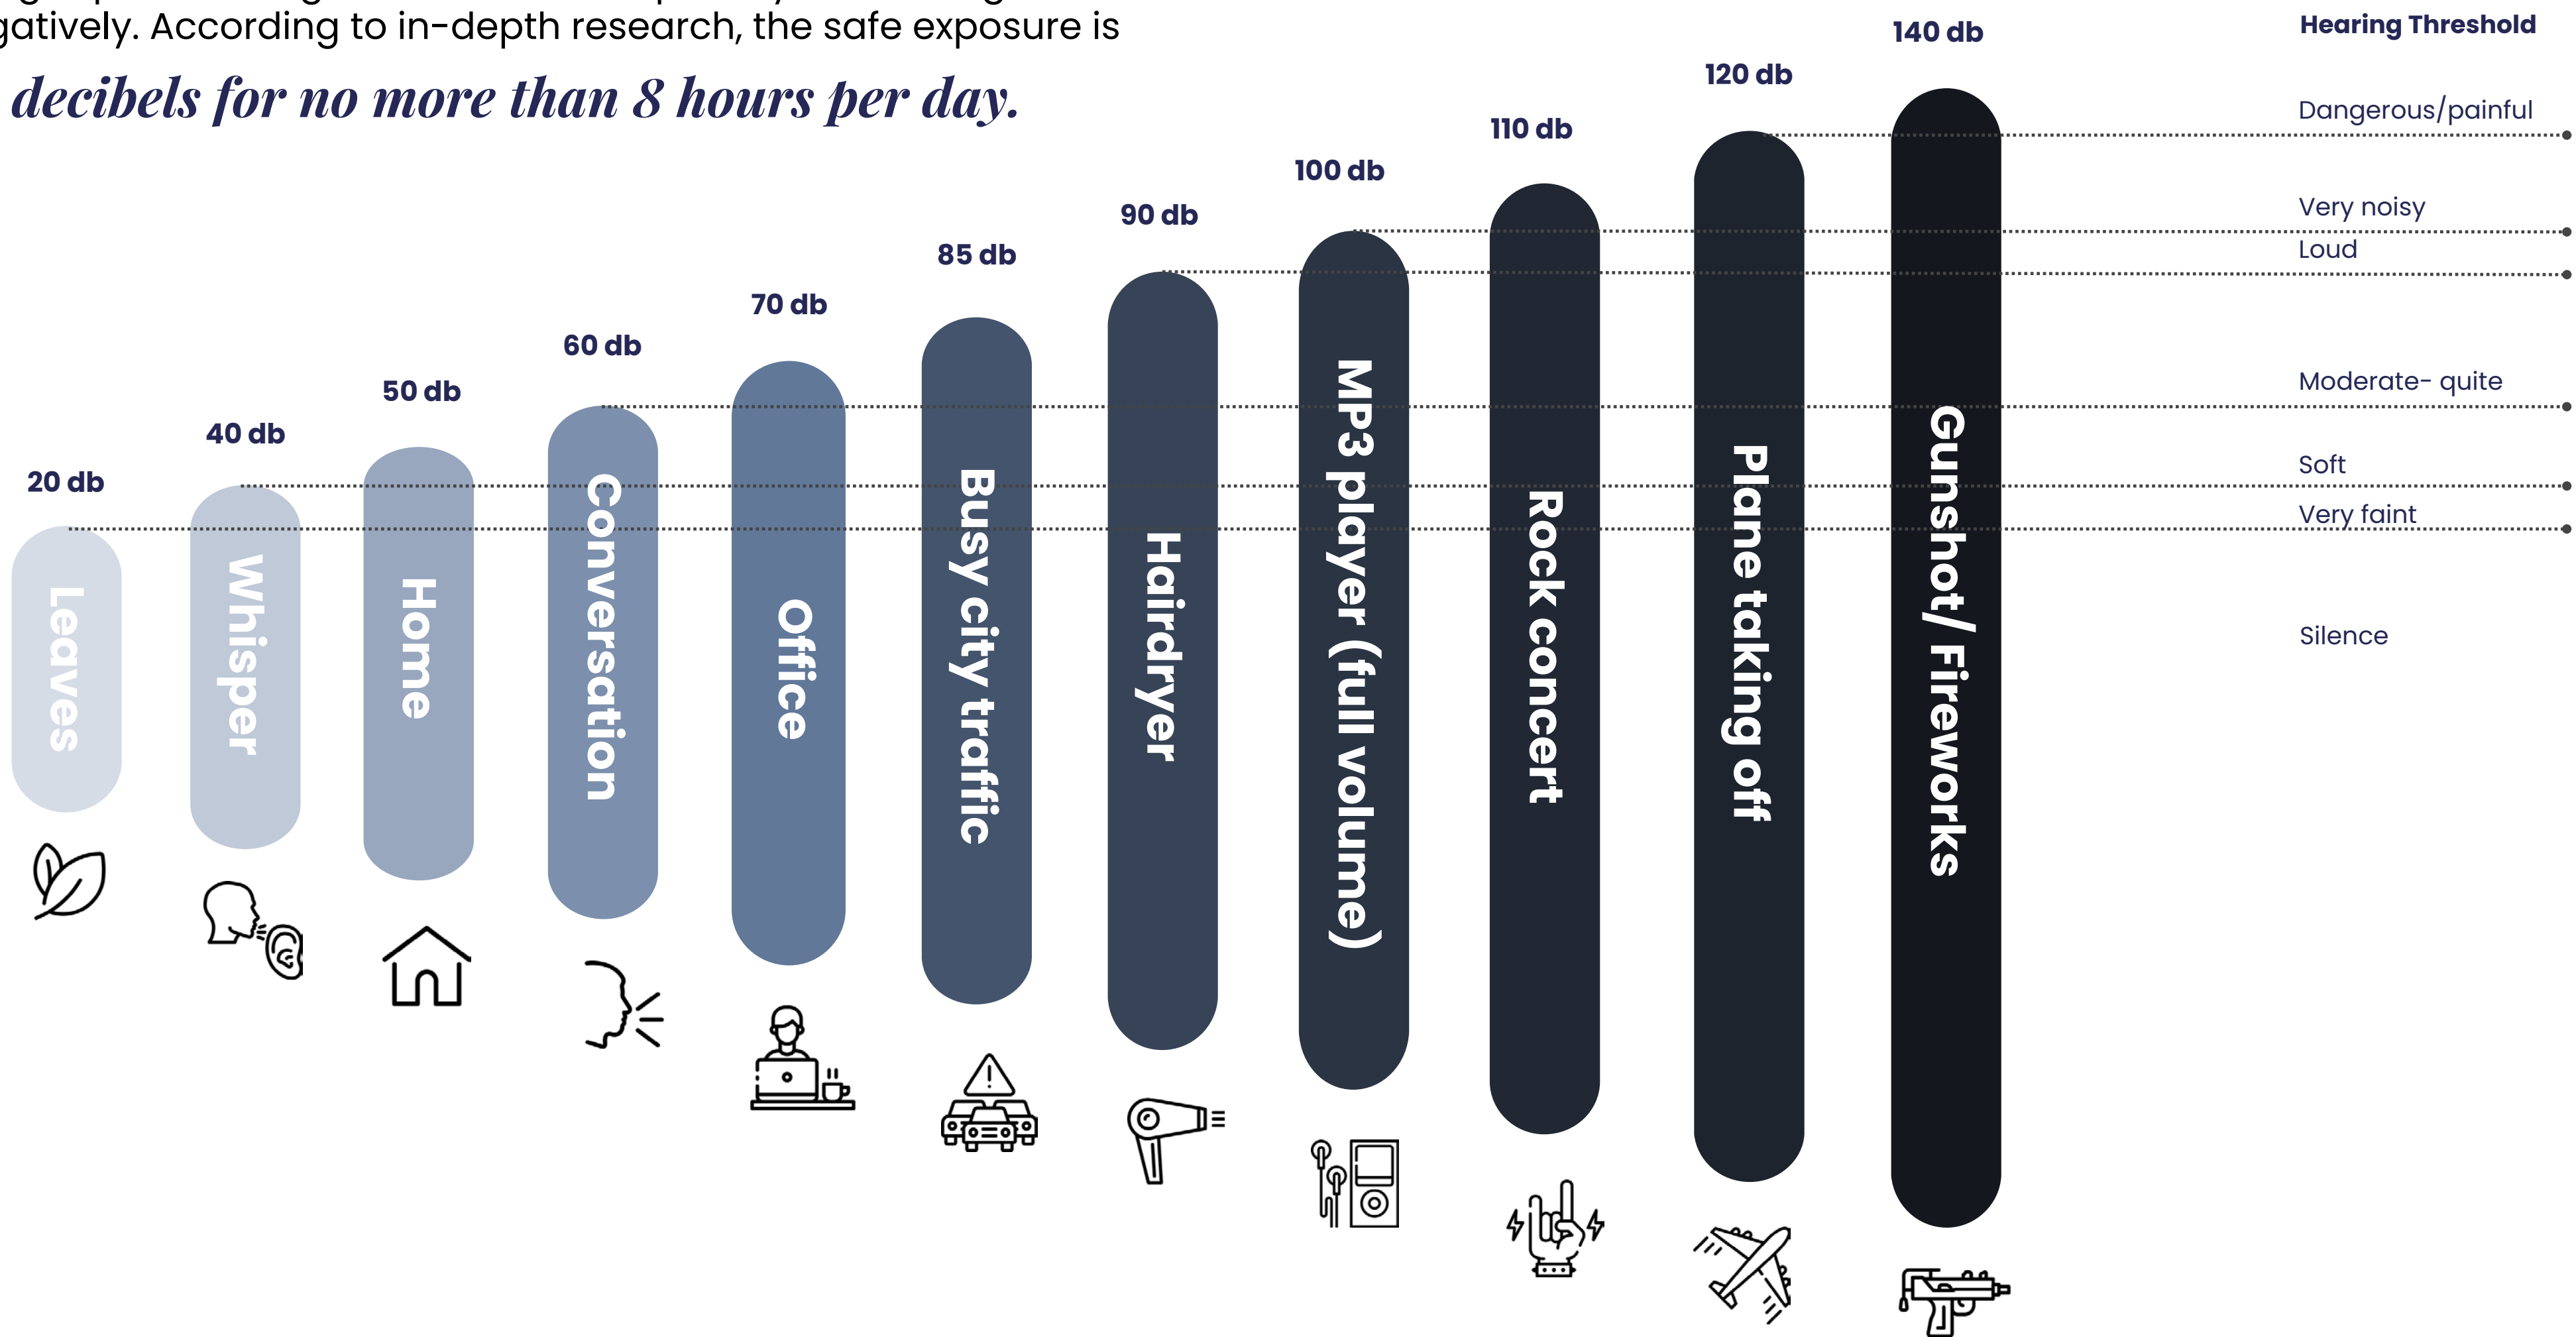

What sounds surround us.

How loud is too loud?

Being exposed to high level of noise impacts your hearing and overall health negatively. According to in-depth research, the safe exposure is

85 decibels for no more than 8 hours per day.

**Polish norm
PN-B-02151-4**

**International norm
ISO 22955**

*Many
countries have
their own
set of norms
regarding
acoustics at
the workplace.*

Why do we care?

*What **negative** impact does noise have on us?*

About Acoustics

↓ **66%** reduction in **productivity** at work due to noises.¹

↓ **69%** decrease in employees' **concentration, productivity** and **creativity**²

↓ **70%** of office workers were **not satisfied** with the **noise levels** even before the pandemics³

↓ **42%** post-pandemic workers warn they may go into a **noise frenzy**.⁴

¹ World Green Building Council: Health, wellbeing & productivity in offices, 2014
² Interface, Workplace Acoustics Study, 2019.
³ Leesman, The Leesman Review, Q2 2015
⁴ Poly, Evolution of the Workplace, 2021

Why do we care?

How proper acoustics can affect us in a positive way ?

About Acoustics

↑ **27%** reduction in stress levels.¹

↑ **48%** increase in concentration at work.²

↑ **15%** of conversational distractions can decrease by bettering acoustical conditions.³

↑ **92%** of a company's operating costs is linked to personnel expenses.
Optimizing the indoor climate enhances productivity and increases returns.⁴

⁴ International WELL Building Institute

Acustio's unique qualities.

Felt materials

The selection includes high quality synthetic felt and flame retardant natural wool.

Three-layer edge

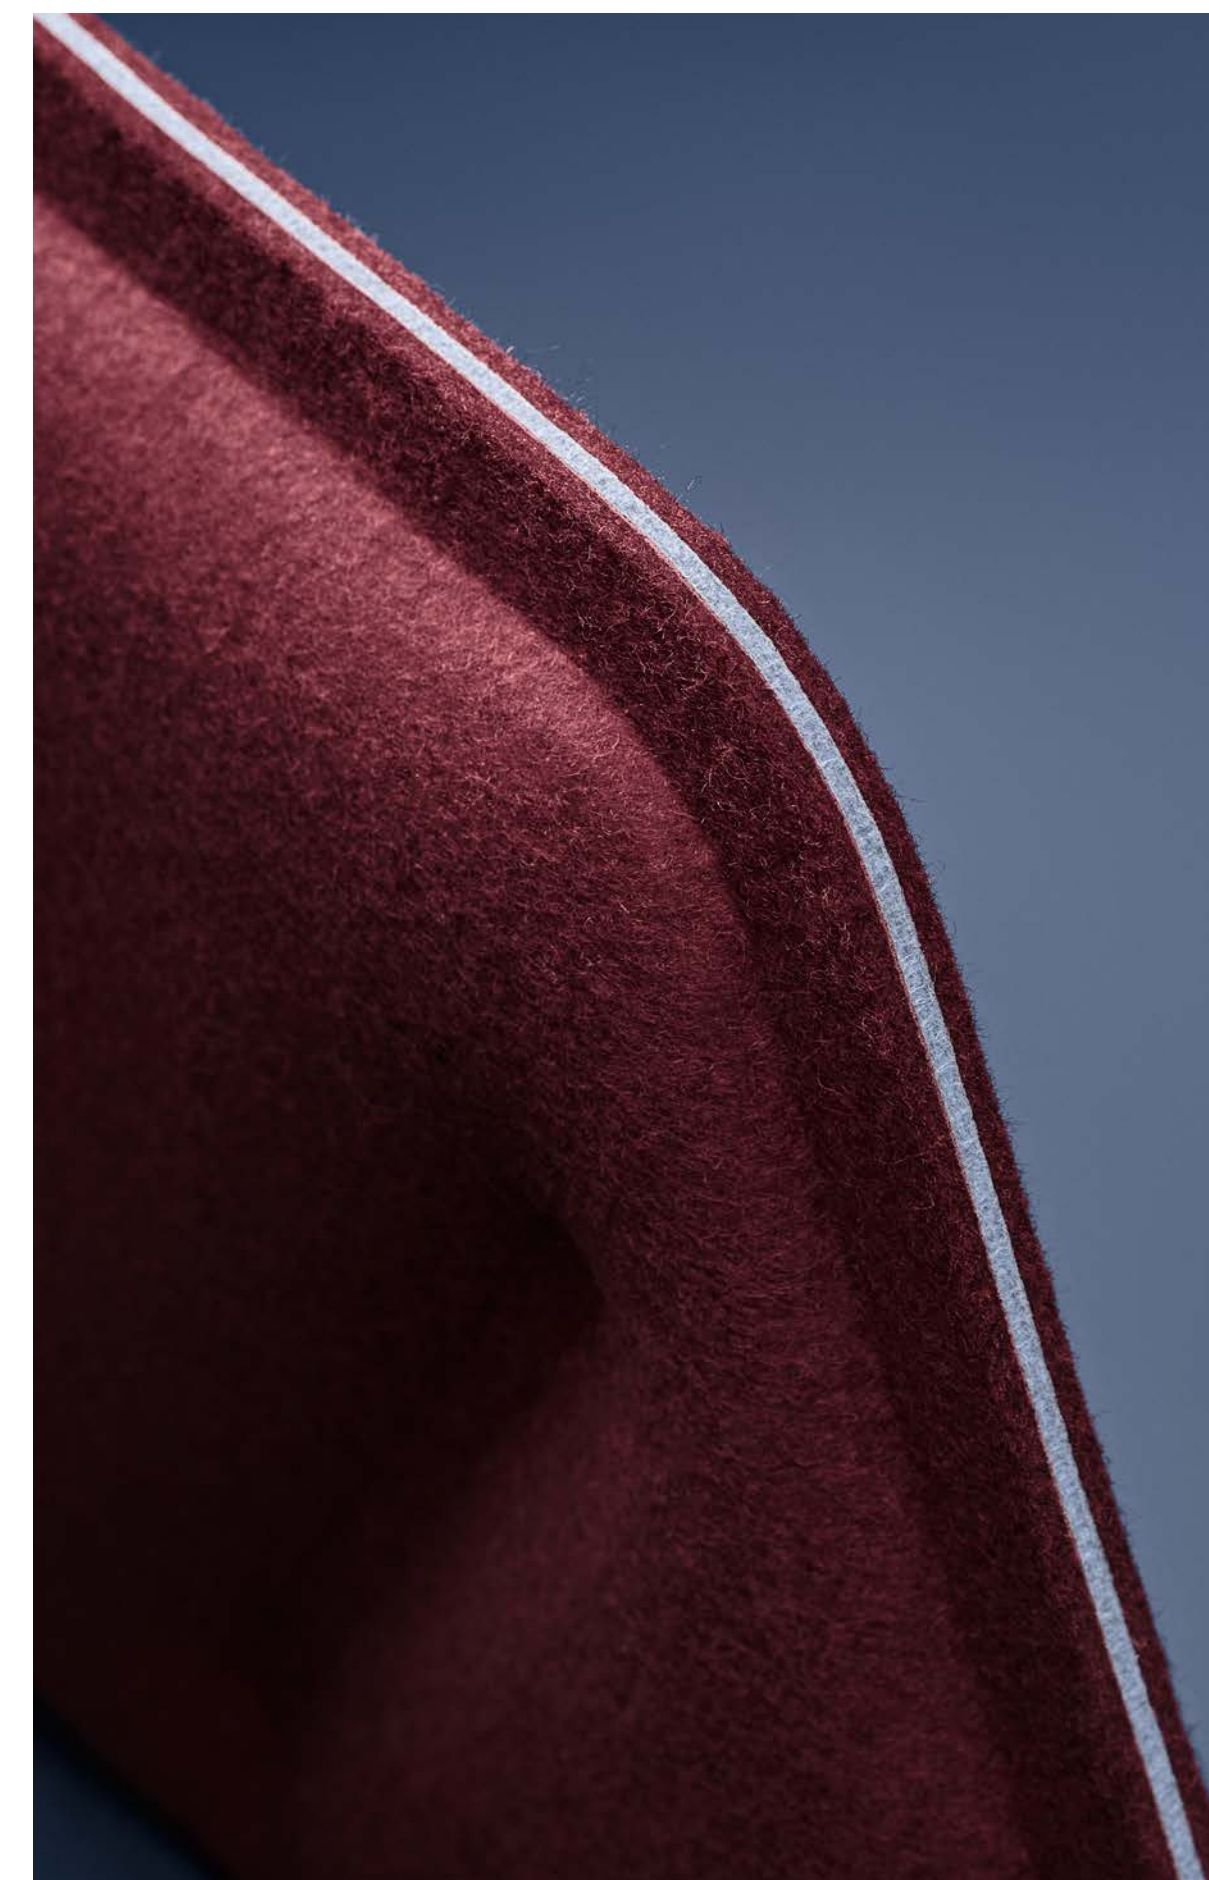

features an additional middle layer ensuring visual consistency across all product families.

80 colours

and three groups of felt. The combinations are countless and the softness – creamy.

Thoughtful design

Acustio products work hand in hand with office furniture from the world's leading manufacturers – the adaptability working in everyone's favour.

We are delighted to announce our awards

Awards don't define us, but are a beautiful appreciation of our daily work

Thank you to everyone who's made each and every merit possible and cheers to what's yet to come.

Silentum

A family of four individual products that integrate perfectly with all types of office interiors, Silentum's structure dazzles with its sleek aesthetics of minimalism.

reddot winner 2020
best of the best

longlisted
dezeen
awards 2021

Our hero when it comes to most sophisticated, classic, but also unique design juxtaposed with flawless acoustic properties.

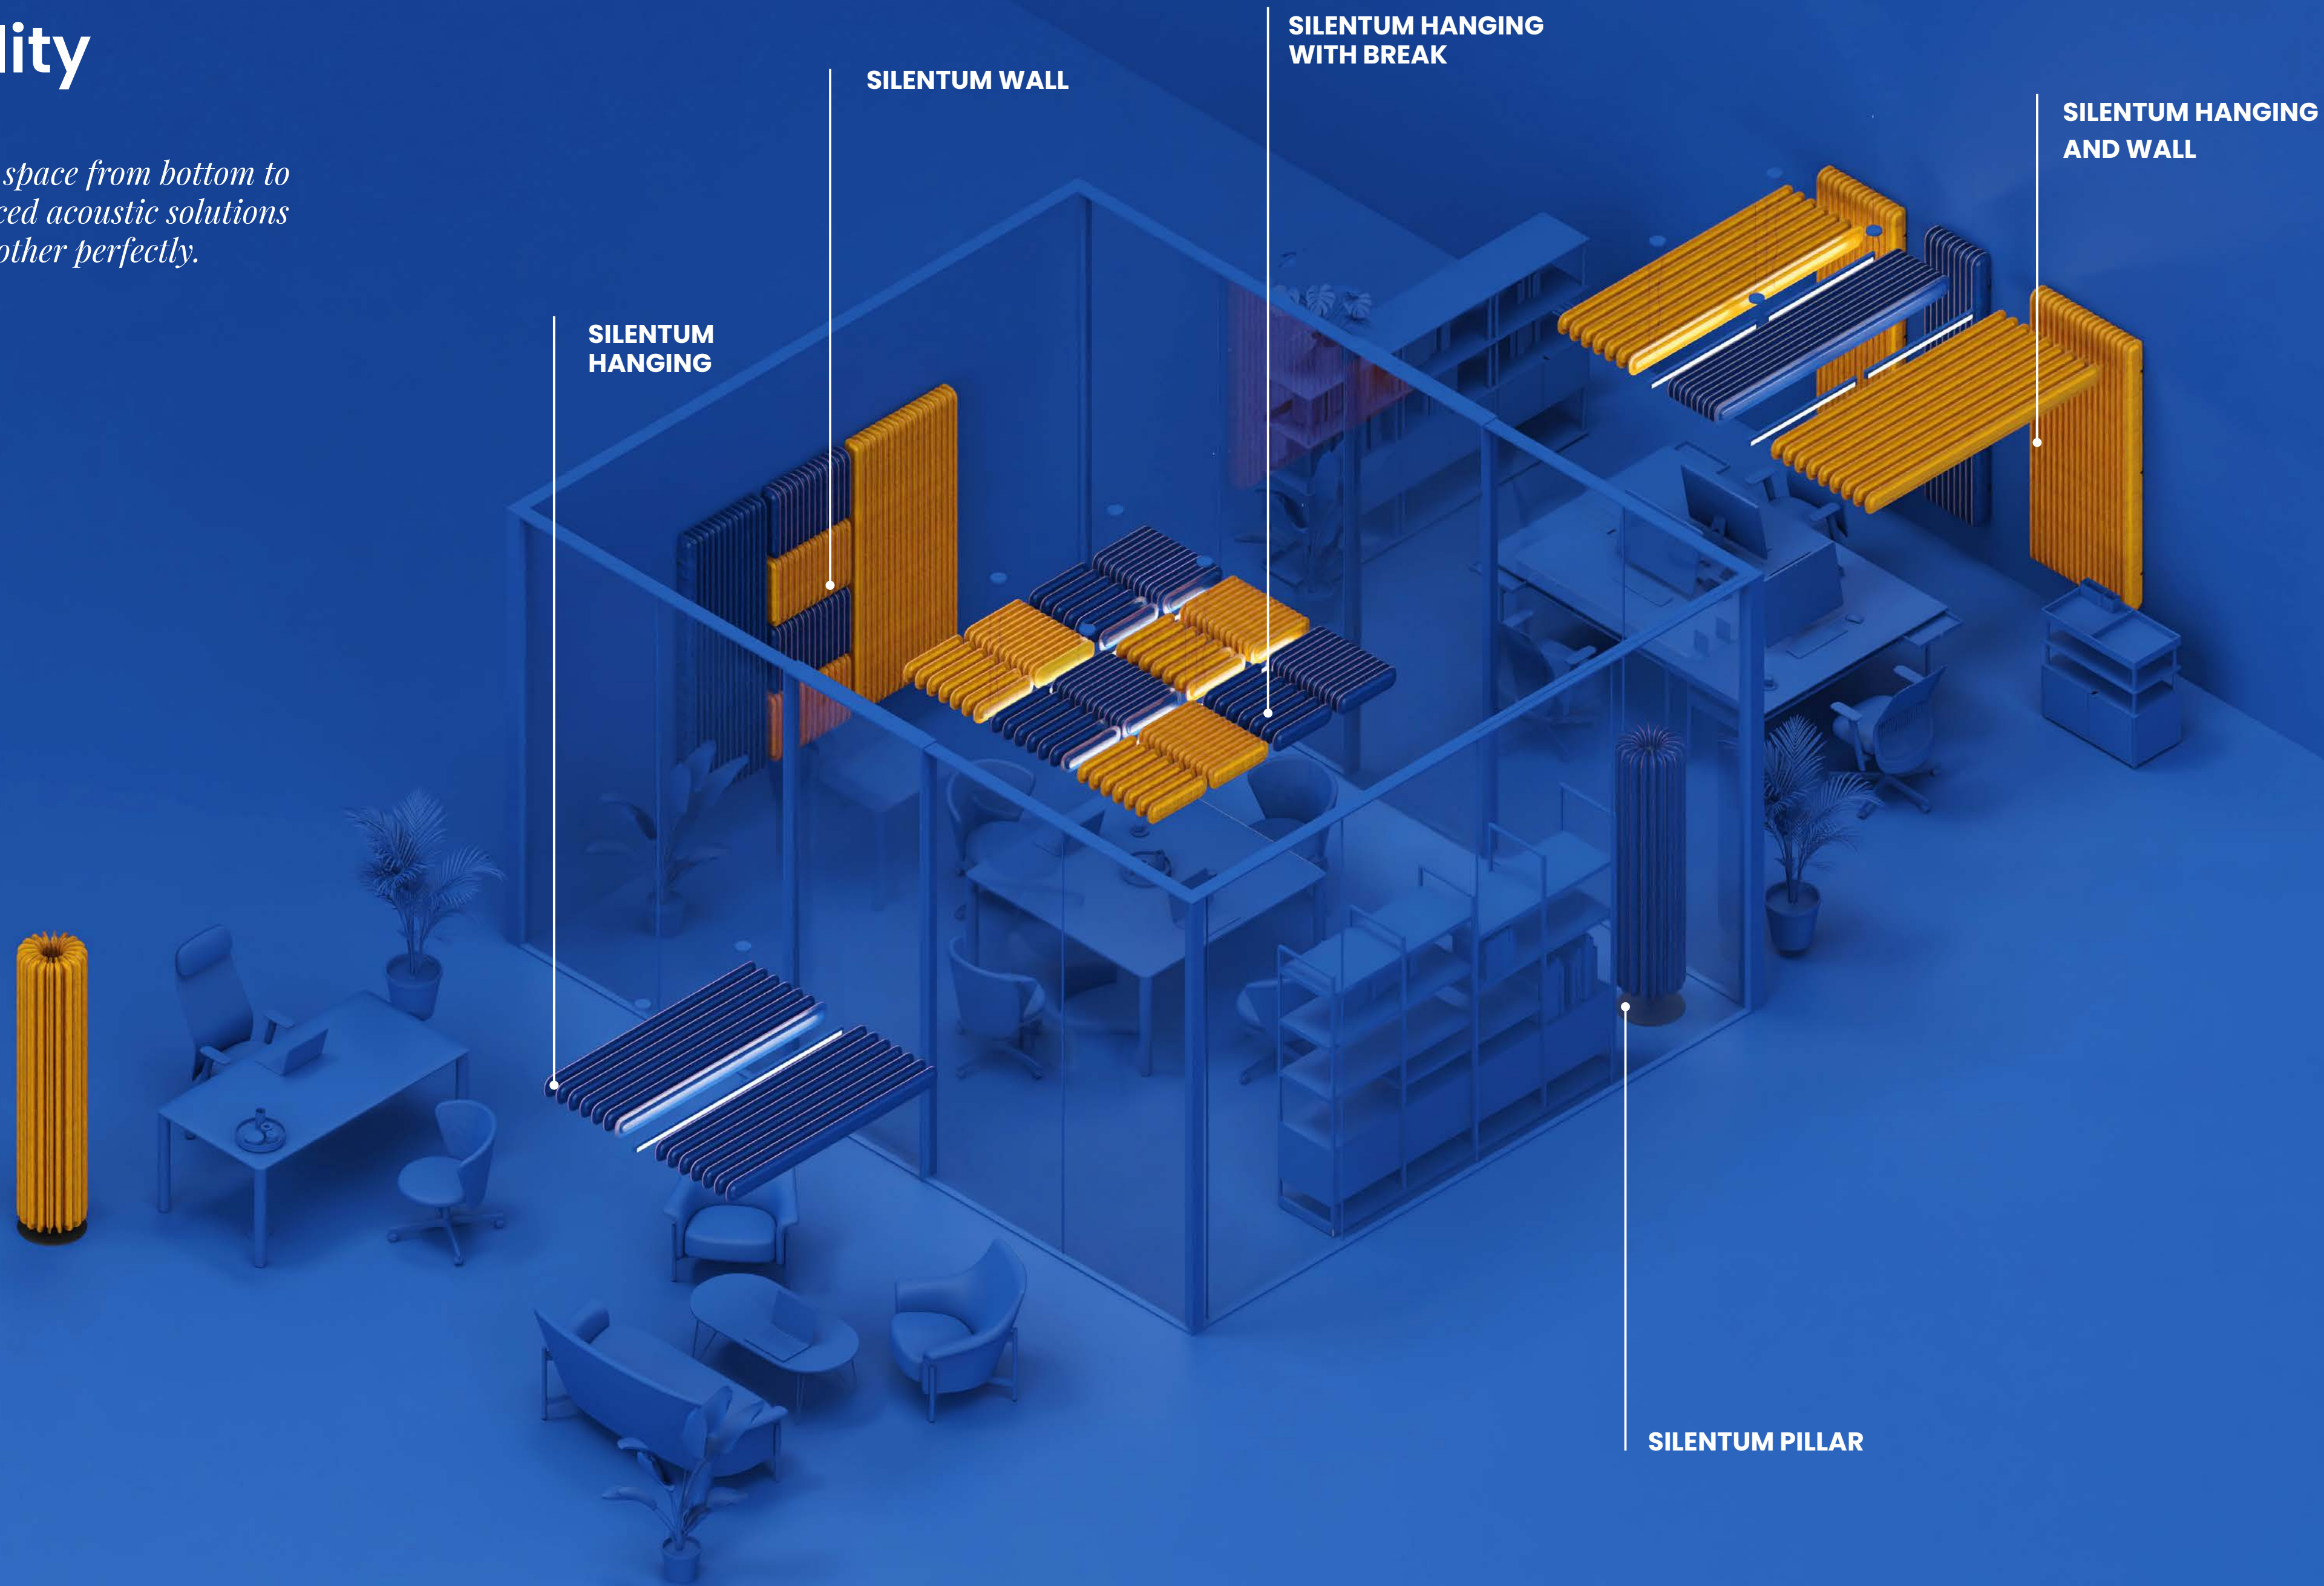

Designed by Mateusz Gaczowski and Iwona Pasik.

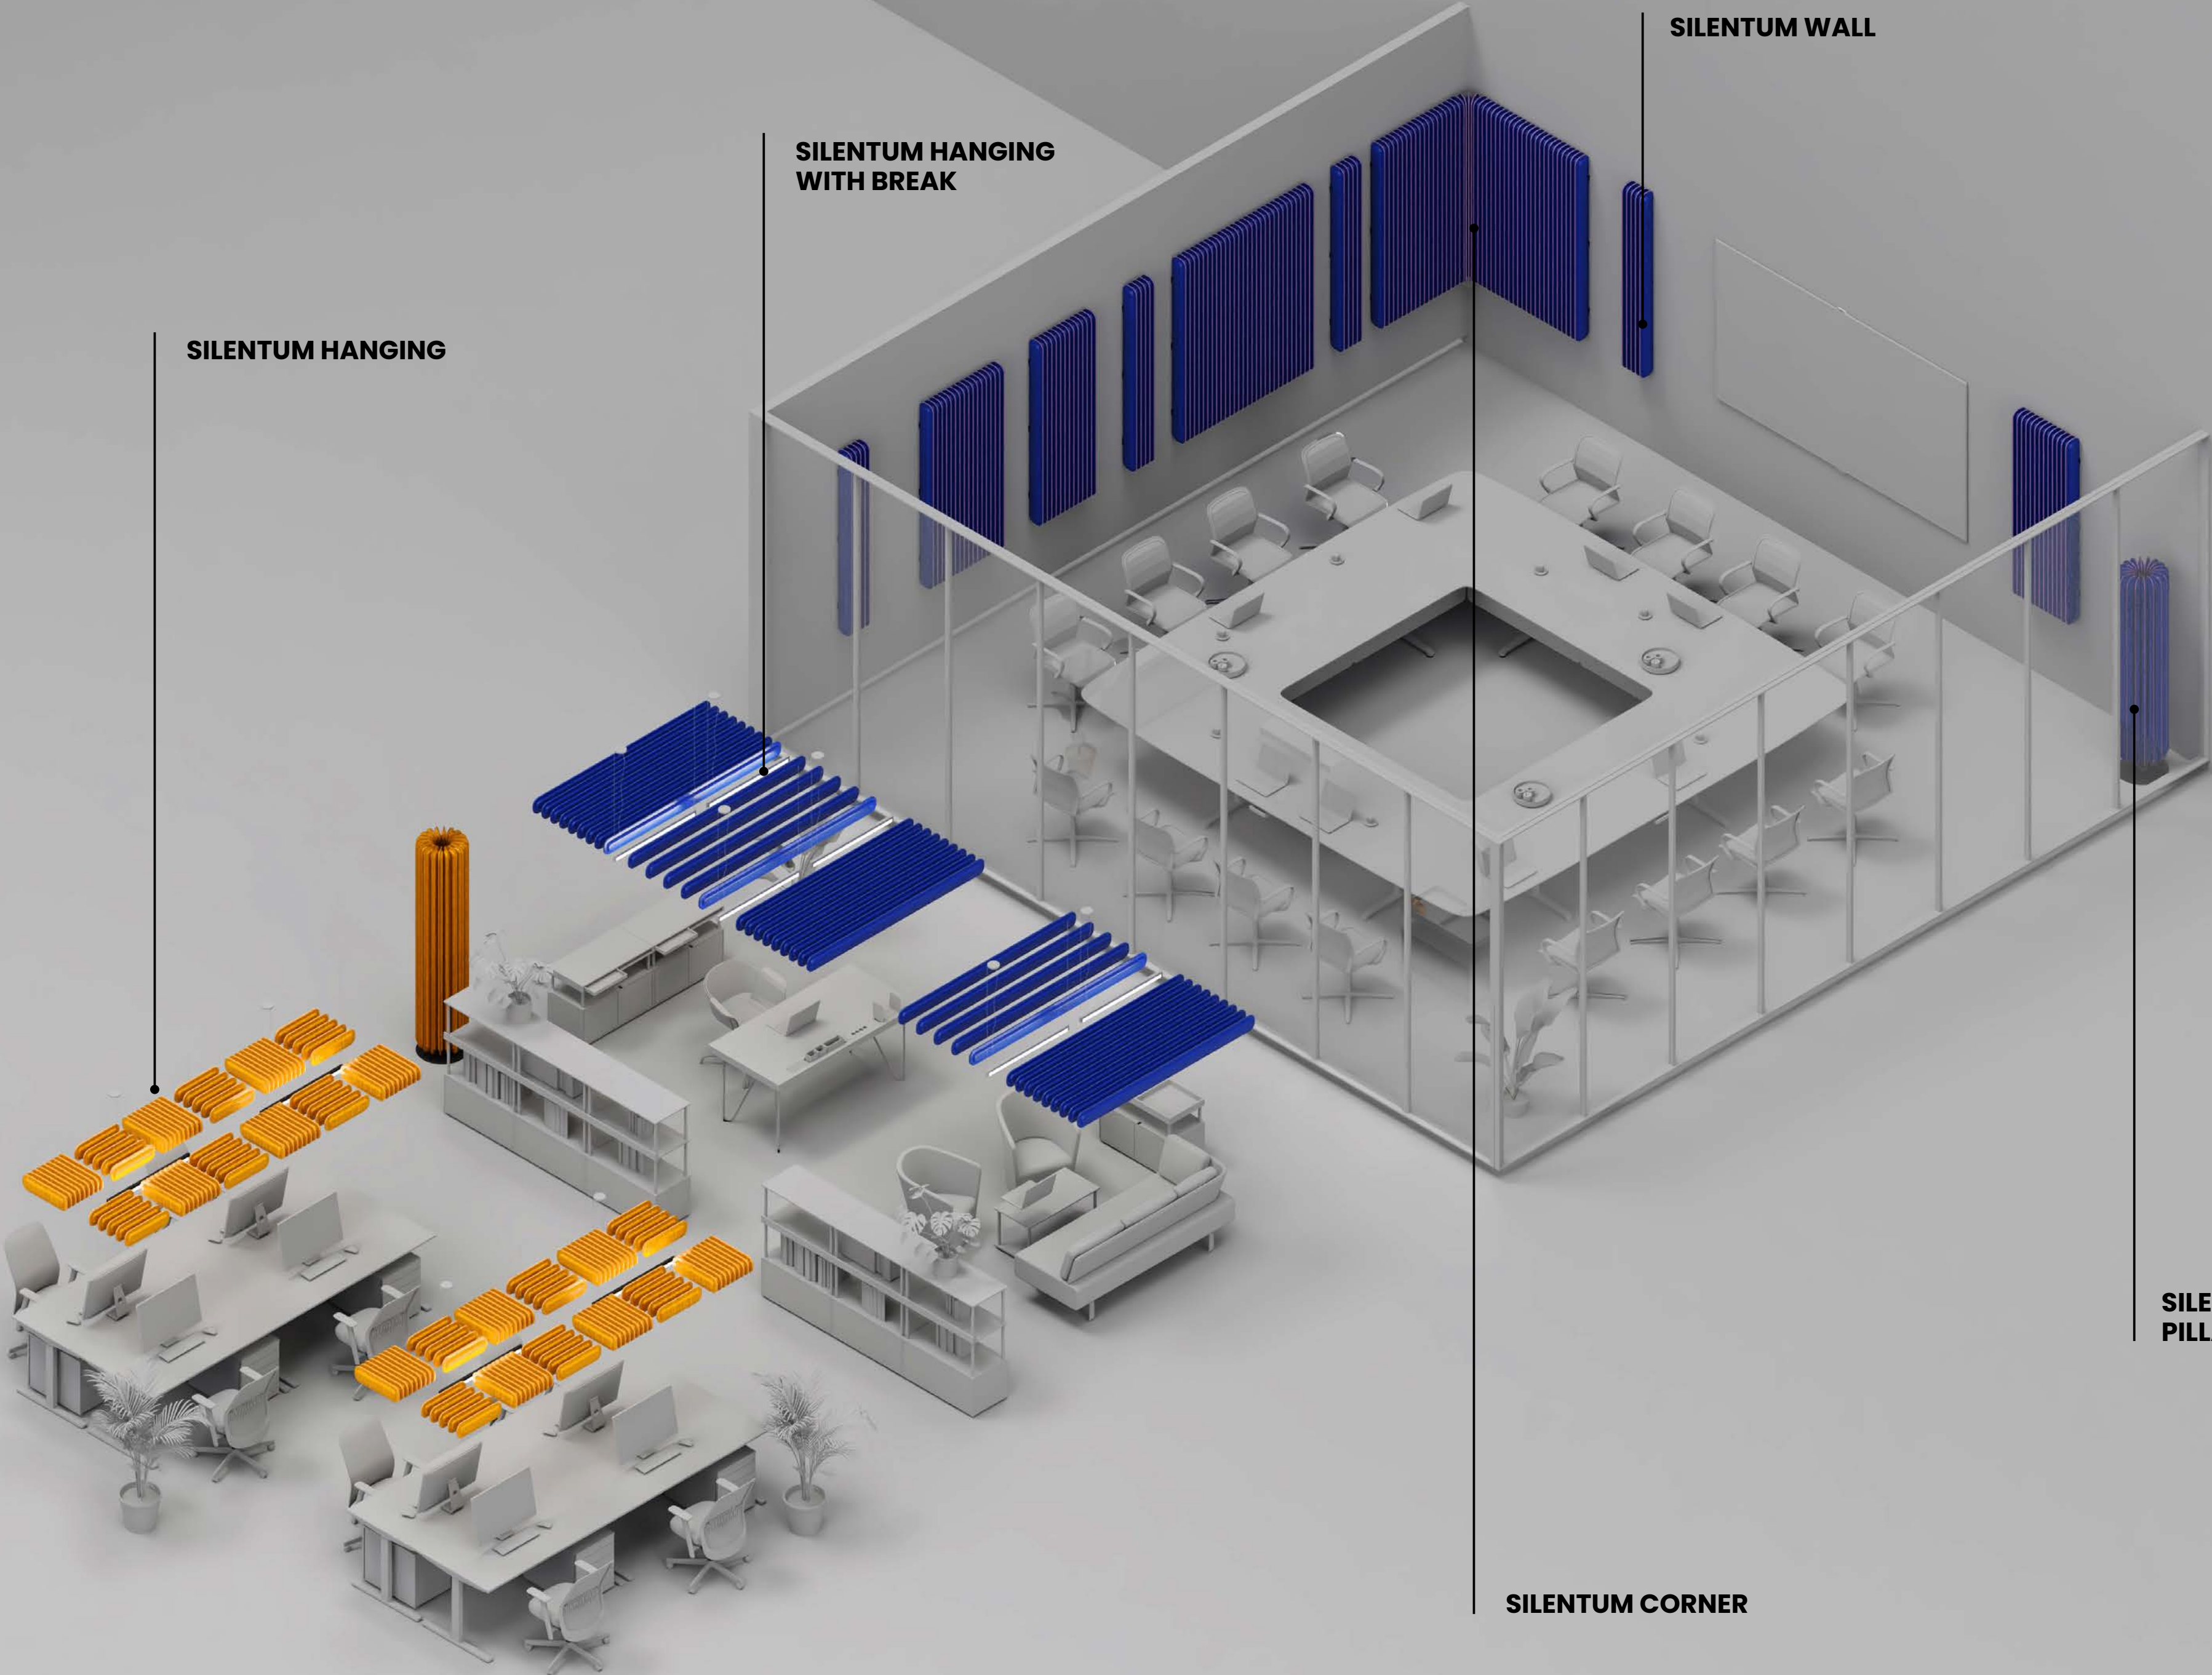

- Red Dot 2020 Best of the Best Award Winner
- Simplicity of form and uniqueness of design
- 4 functions of use

Functionality

Mix, match and fill your space from bottom to top with the most advanced acoustic solutions which complement each other perfectly.

Functionality

Leaves

100% inspired by nature. Simply. Our leaf-shaped panels are not only pragmatic, serving its main purpose which is insulating the room from exterior sounds, but they are also made in accord with biophilic design.

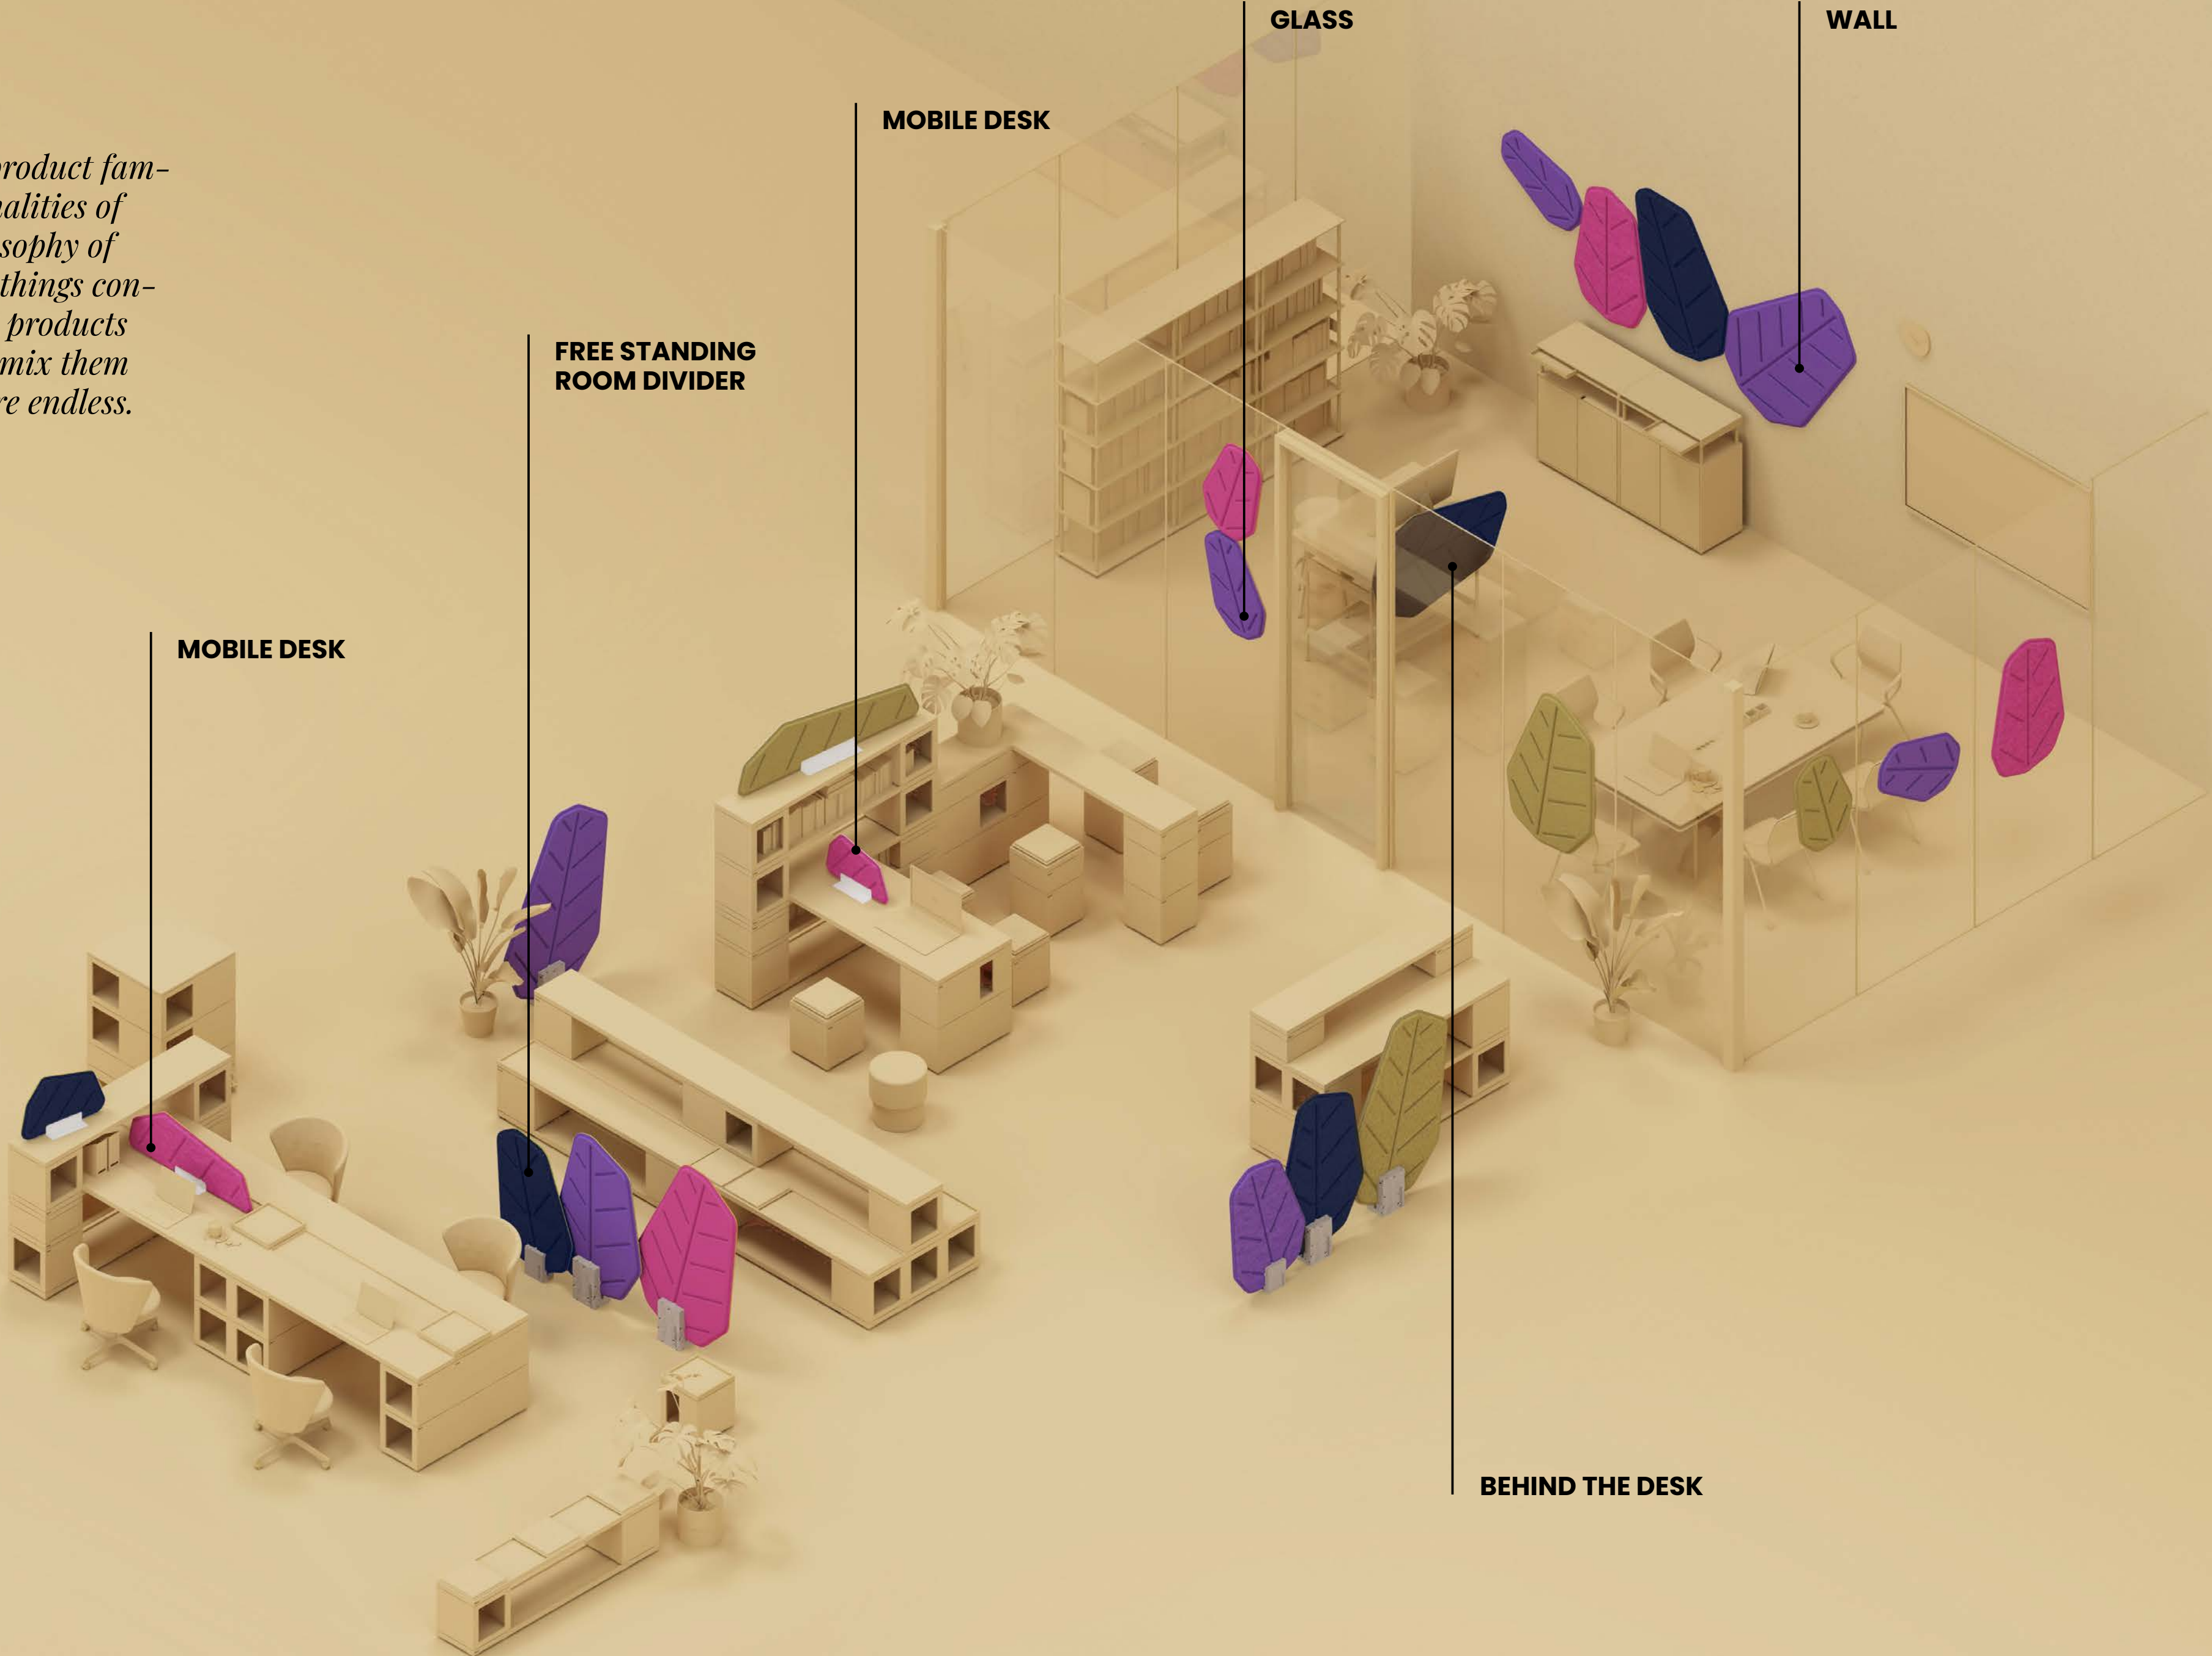

Created in accordance with biophilic design – combining nature inspired features with the office space.

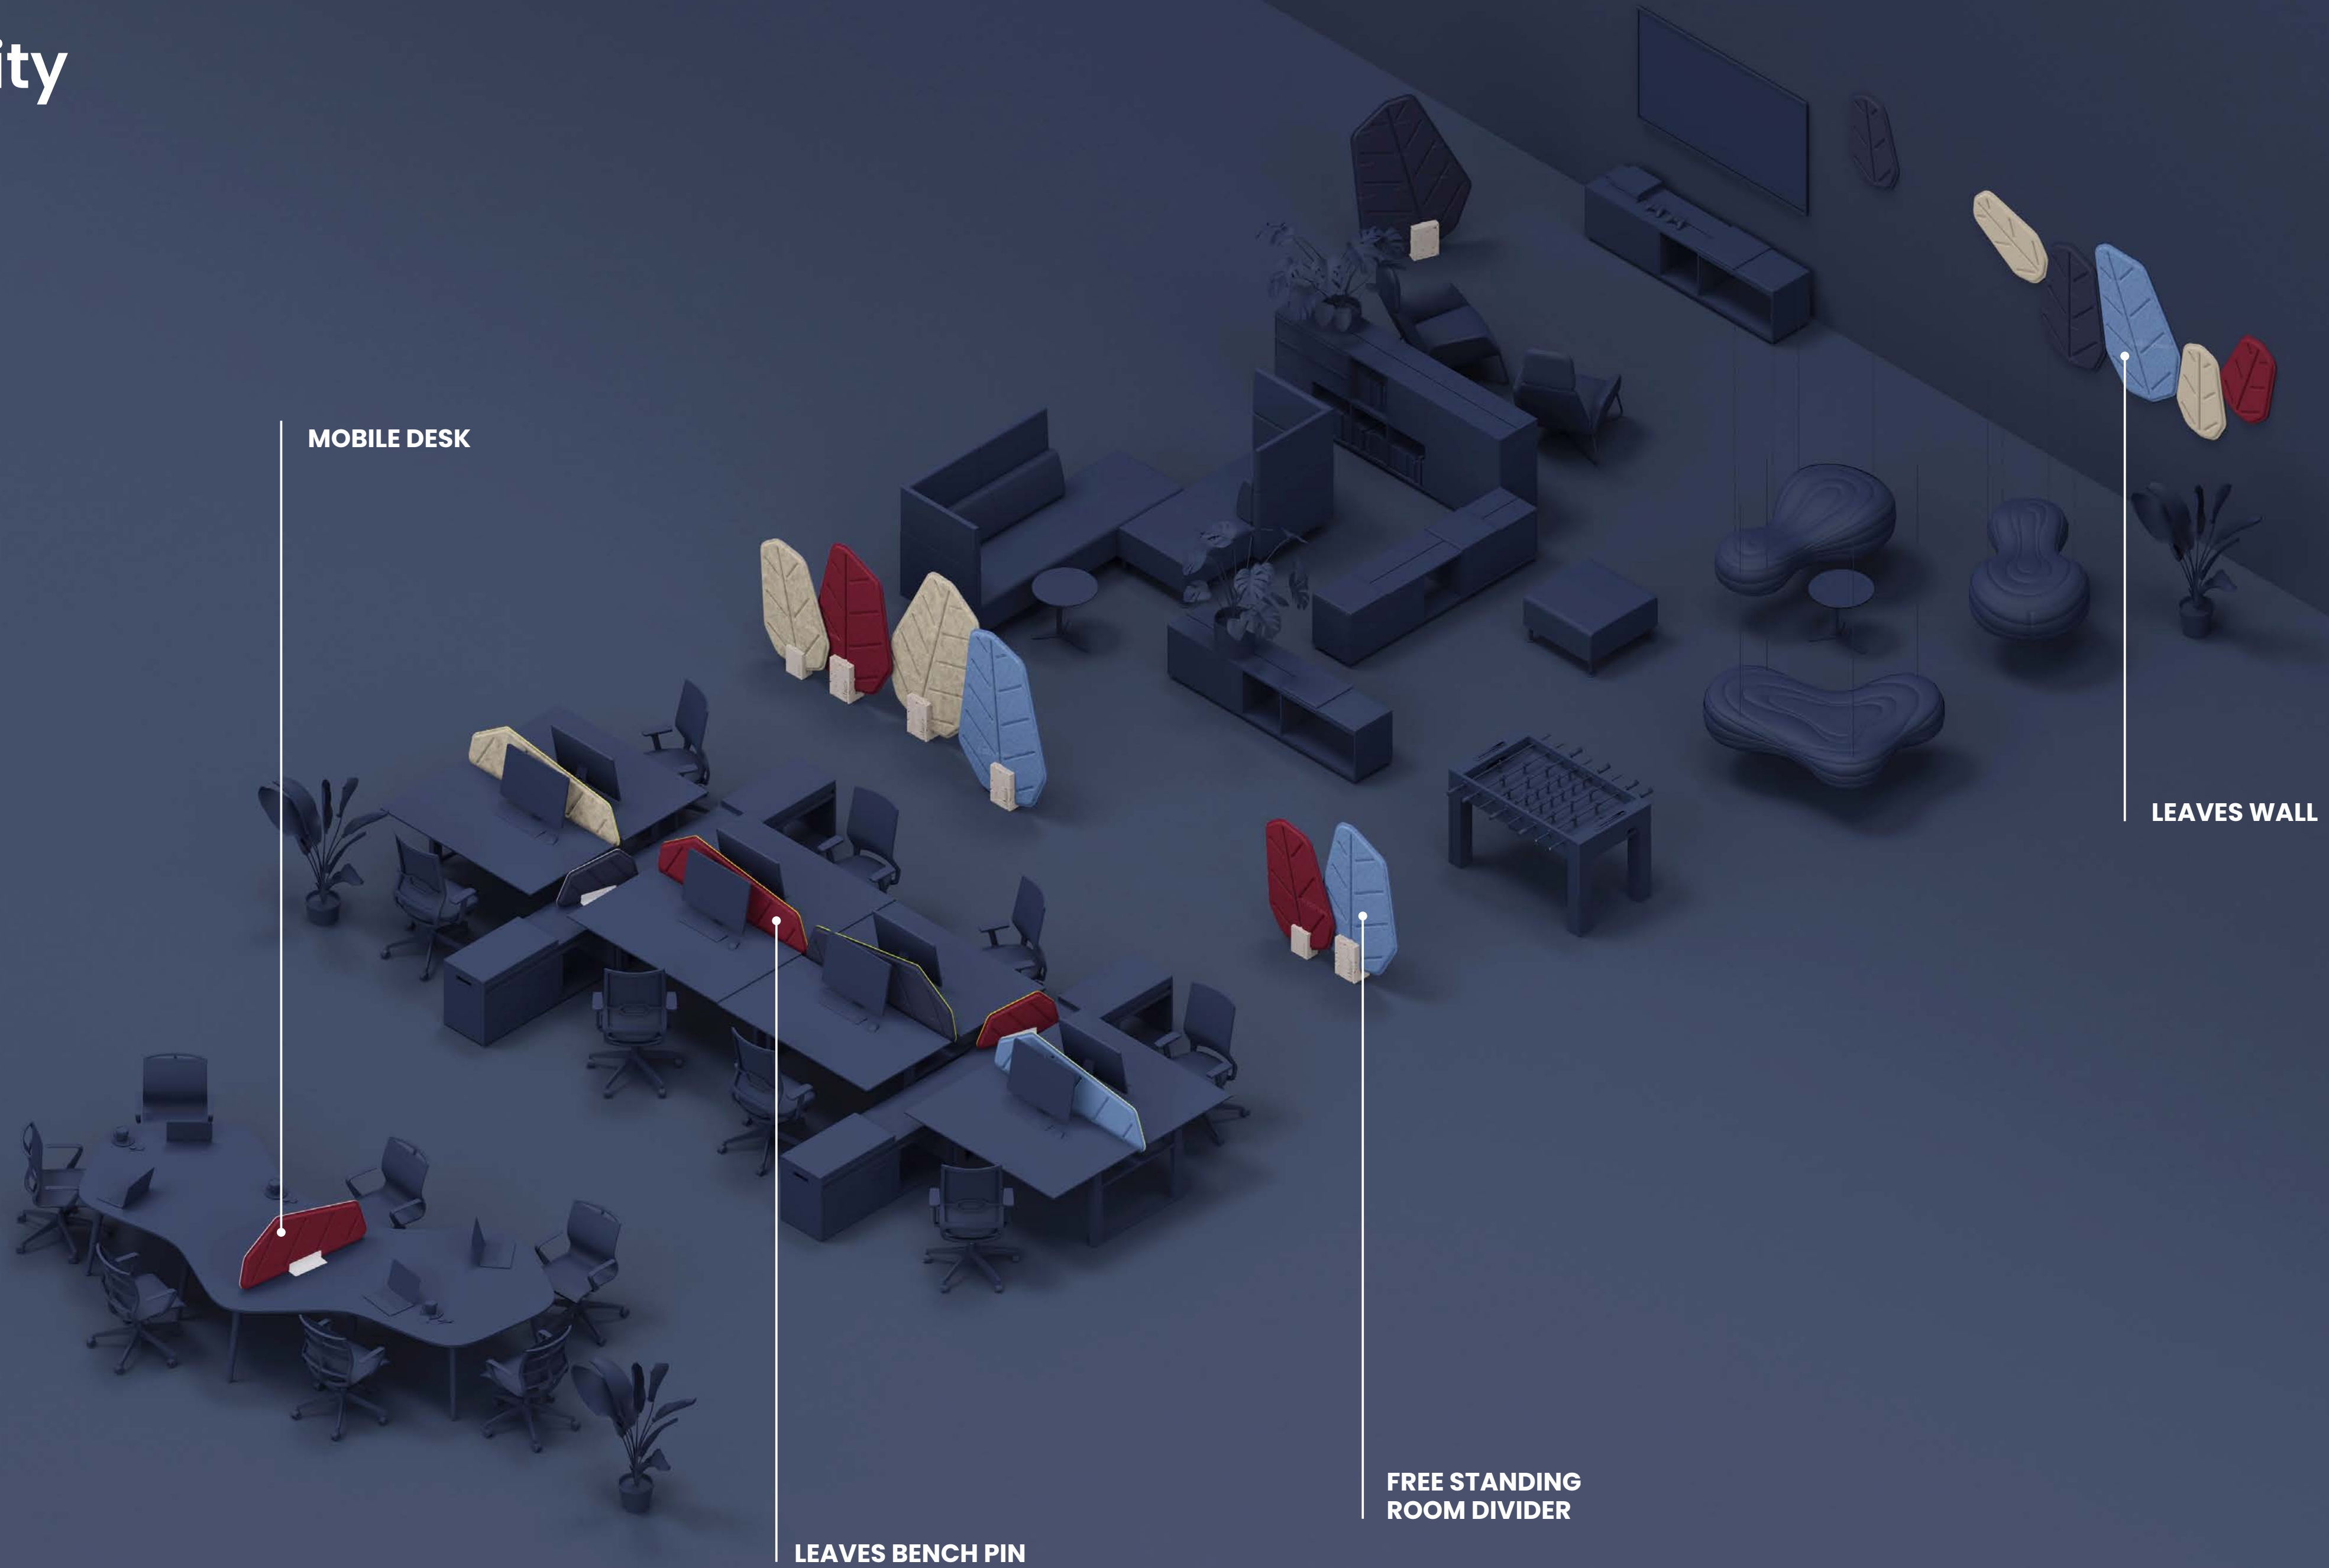

- Nature-inspired shape
- Biophilic design
- Easily arrangeable with other Leaves

Functionality

Our second most comprehensive product family to date. The advanced functionalities of Leaves facilitate sustainable philosophy of working and living. You can keep things consistent and fill the space only with products from the Leaves range or you can mix them with other families. Possibilities are endless.

Functionality

Heaven Booth

*Easy to work and play with.
The Heaven Booth enables
you to rearrange every space
in a split of a second, while
still giving you that fully
sound-proof effect.*

SEVENTH HEAVEN

1. All Acustio panels feature **excellent acoustic properties**.
2. They combine **Class A sound** absorption and a full sound reduction produced by the chipboard.
3. Since two panel edges overlap as a result of the binding process, **absolute sound insulation is guaranteed at contact point**, with a total of six felt layers working to ensure a comfortable silence.
4. The Heaven Booth panels are available in five **different heights** and **can be easily connected** at any angle using a single type of adapter.
5. Each **panel's edge** is highly **flexible and bendable**. As a result, the extendable room dividers are as effective in ensuring the quiet operation of a photocopier in the middle of the open space as they are in dividing the space into smaller enclosures for teams to collaborate.
6. With a **selection of mounting feet and castors** that meet the needs of any space, Heaven Booth makes arranging the office an incredibly easy job.
7. The **hundreds of colour combinations** available, combined with three categories of felt, offer the architects and designers unrestrained artistic freedom to apply a truly personal touch.

Functionality

A flexible solution that helps to create chillout zones, meeting rooms and spaces to focus in. Arrange, reconfigure your office and let the fun begin all over again.

A PANEL ON WHEELS

Fully mobile with castors attached, the panels have infinite possibilities to form soundproof walls, bending at angles up to 120°.

BEND THE EDGE OUTWARDS

Save space in the open space, building quiet meeting spots and soundproofing printers and copiers.

BEND THE EDGE INWARDS

You'll be amazed at how much extra space you'll gain with this configuration, soundproofing one or more desks, putting them together and surrounding from up to three sides.

DIFFERENT HEIGHTS

The panels are available in five different heights and can be easily connected at any angle using a single type of adapter, so no worries about it not fitting your needs - we assure you it will manage.

Hanging Dividers

Visually appealing, but not fully consuming your space. Our hanging dividers will provide you with some privacy, as well as absorb sounds to make your work/living area even more pleasant.

Aiming high in order to give you the best of both worlds – high quality acoustic experience and undisturbed space.

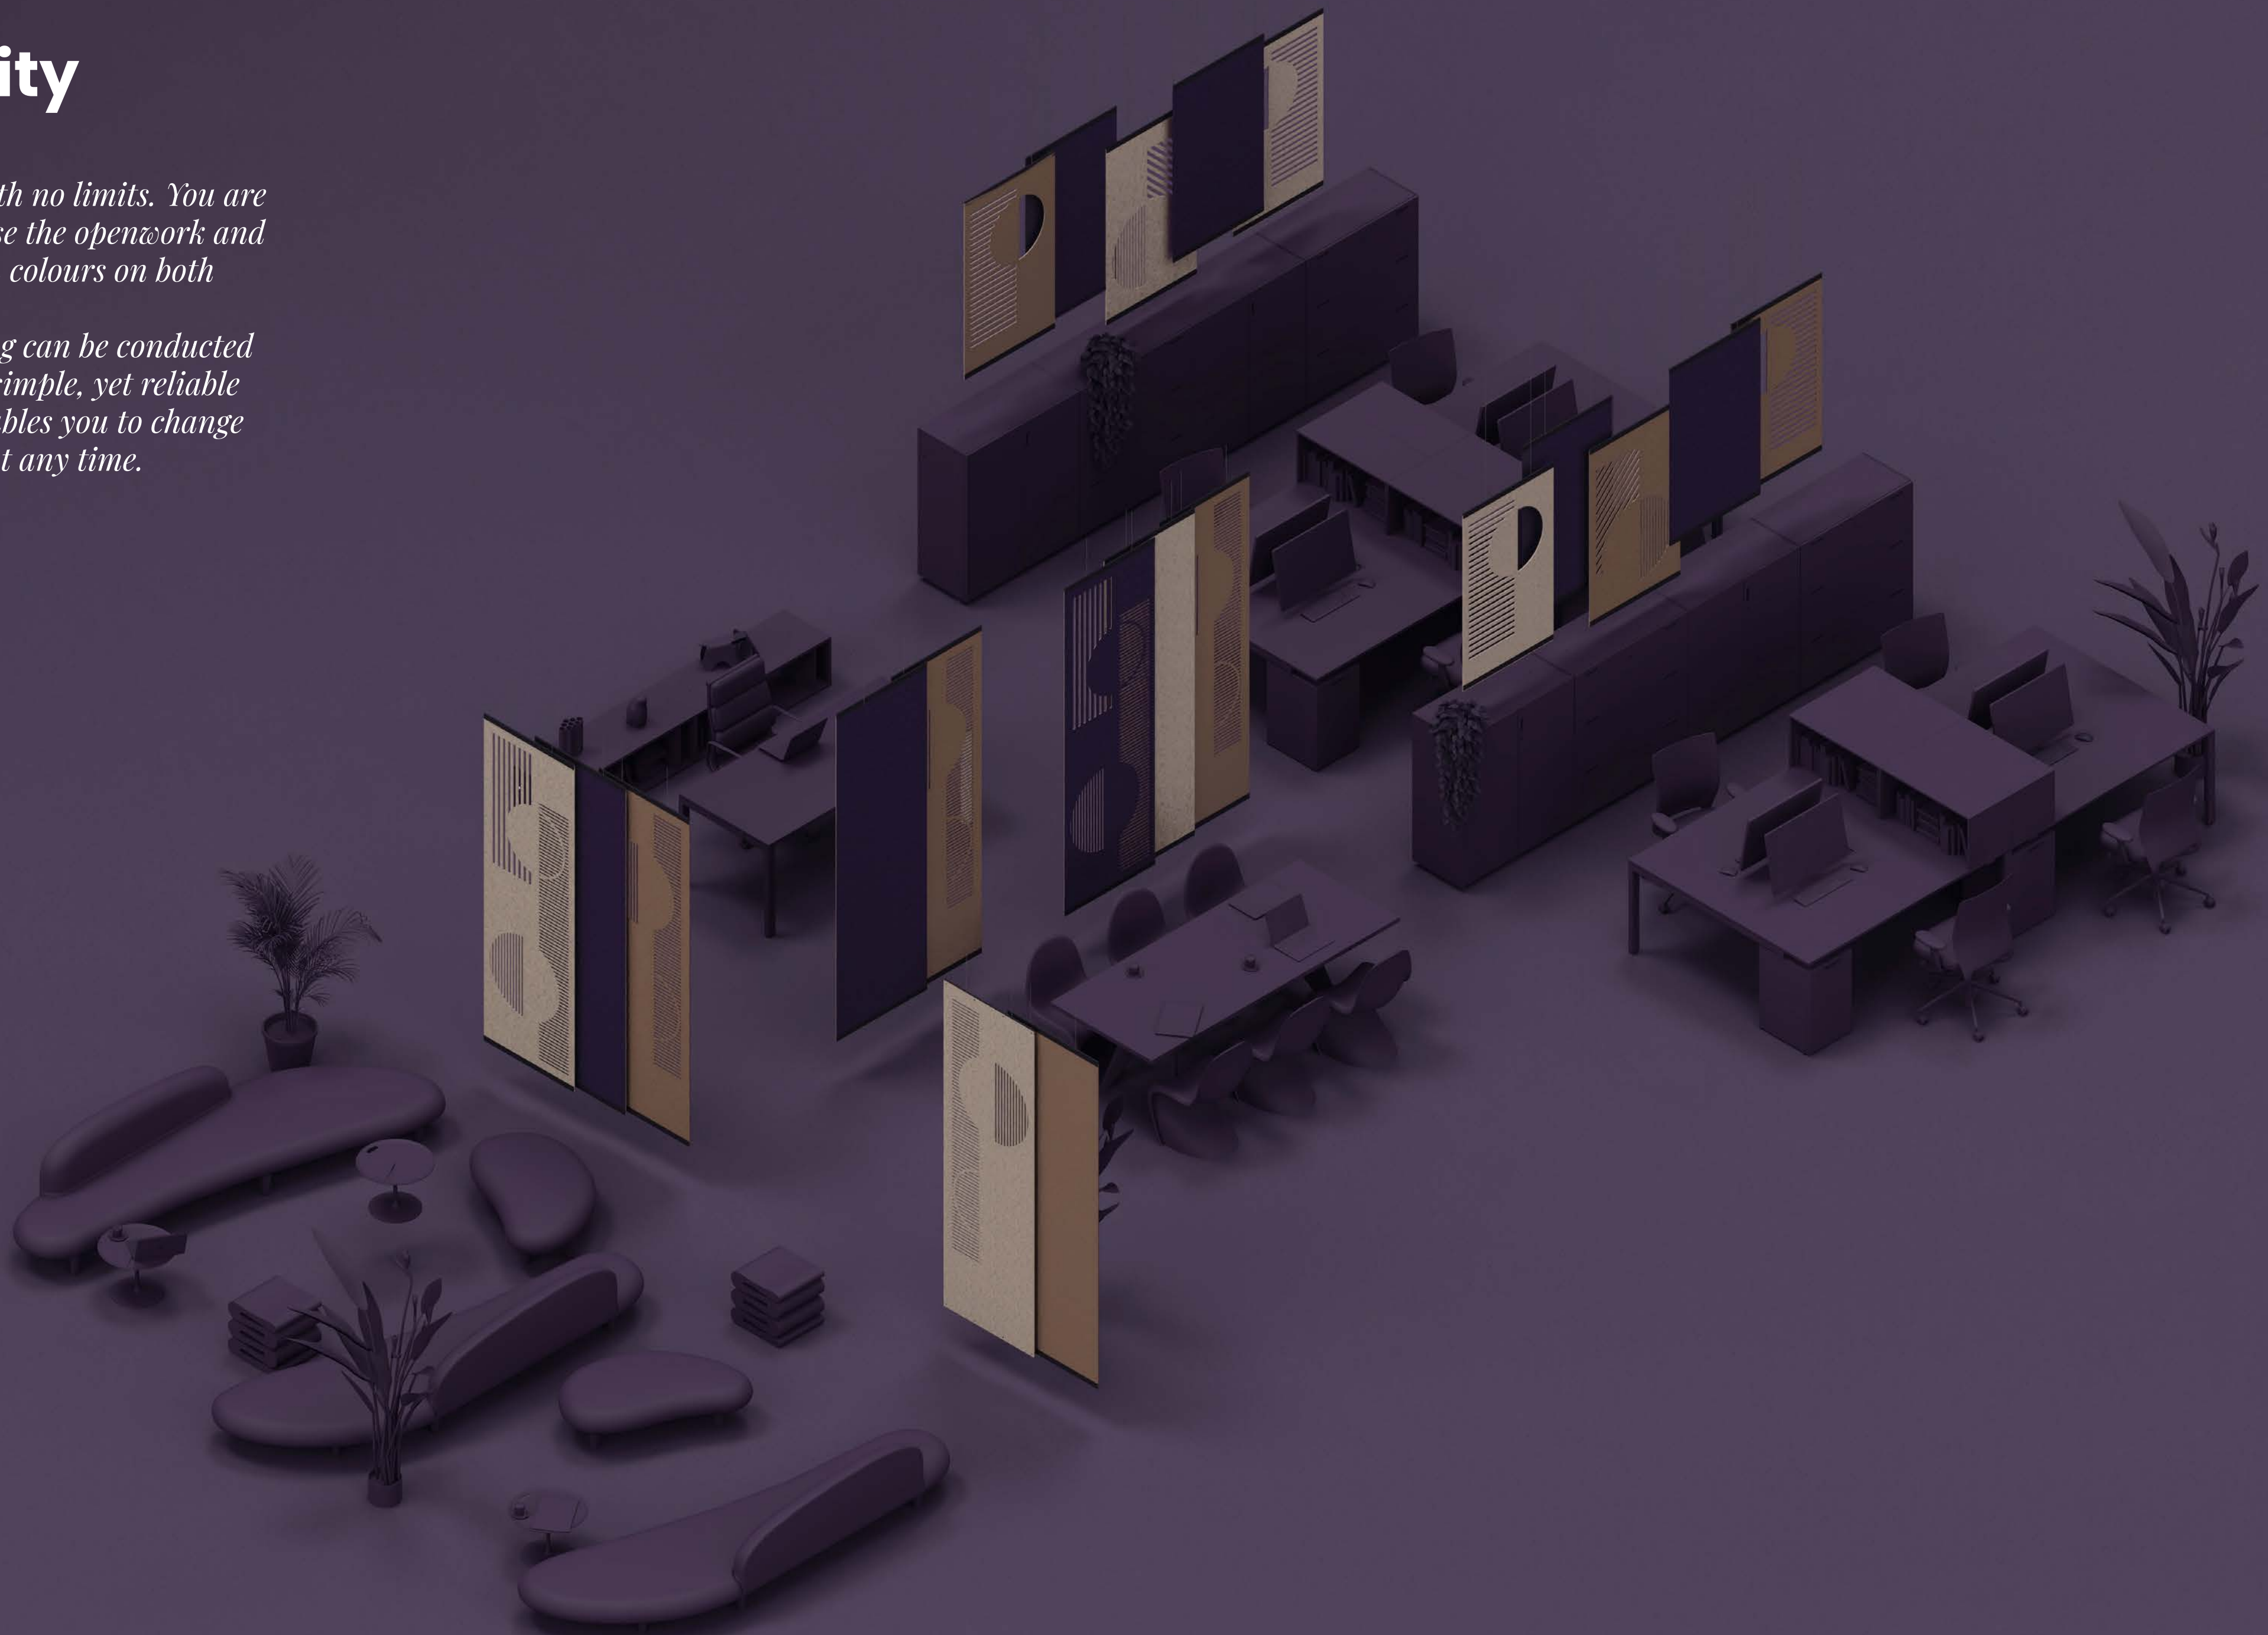

- Two sizes available – long and short
- Designed unique patterns, creating a 3D drawing in space
- Double-sided colour felt selection

Functionality

Arrange and rearrange with no limits. You are also very welcome to choose the openwork and pattern designs along with colours on both sides.

Endless ways of positioning can be conducted and it's all because of the simple, yet reliable mounting system, that enables you to change the place of your divider at any time.

Colline

*Inspired by art and nature.
Extraordinary acoustic
qualities and significantly
broadened ways of
personalisation.*

reddot winner 2022

longlisted
dezeen
awards 2022

must
have

Plan, cut, accessorise, add some colours and fit in precisely to the layout of any wall. Anything to align seamlessly with your visions.

Designed by Mateusz Gaczowski & Aleksandra Mętlewicz

- Myriad ways of personalisation;
- First family featuring 90° angle corner panels to adjoin each other seamlessly
- High level of usability in numerous kinds of spaces
- Sustainability supported by our “mix & match” idea

Functionality

As the most innovative way to go, Colline panels meet expectations of the most demanding, engaging users in a multisensory way. Colline is destined to bring overall balance, both acoustic and aesthetic, to any given space. Flowing just like hills, Colline makes every wall the most visually appealing you can imagine. Placing horizontally/vertically, having fun with colours, adding some slats, light or even cutting - everything is possible when art is concerned.

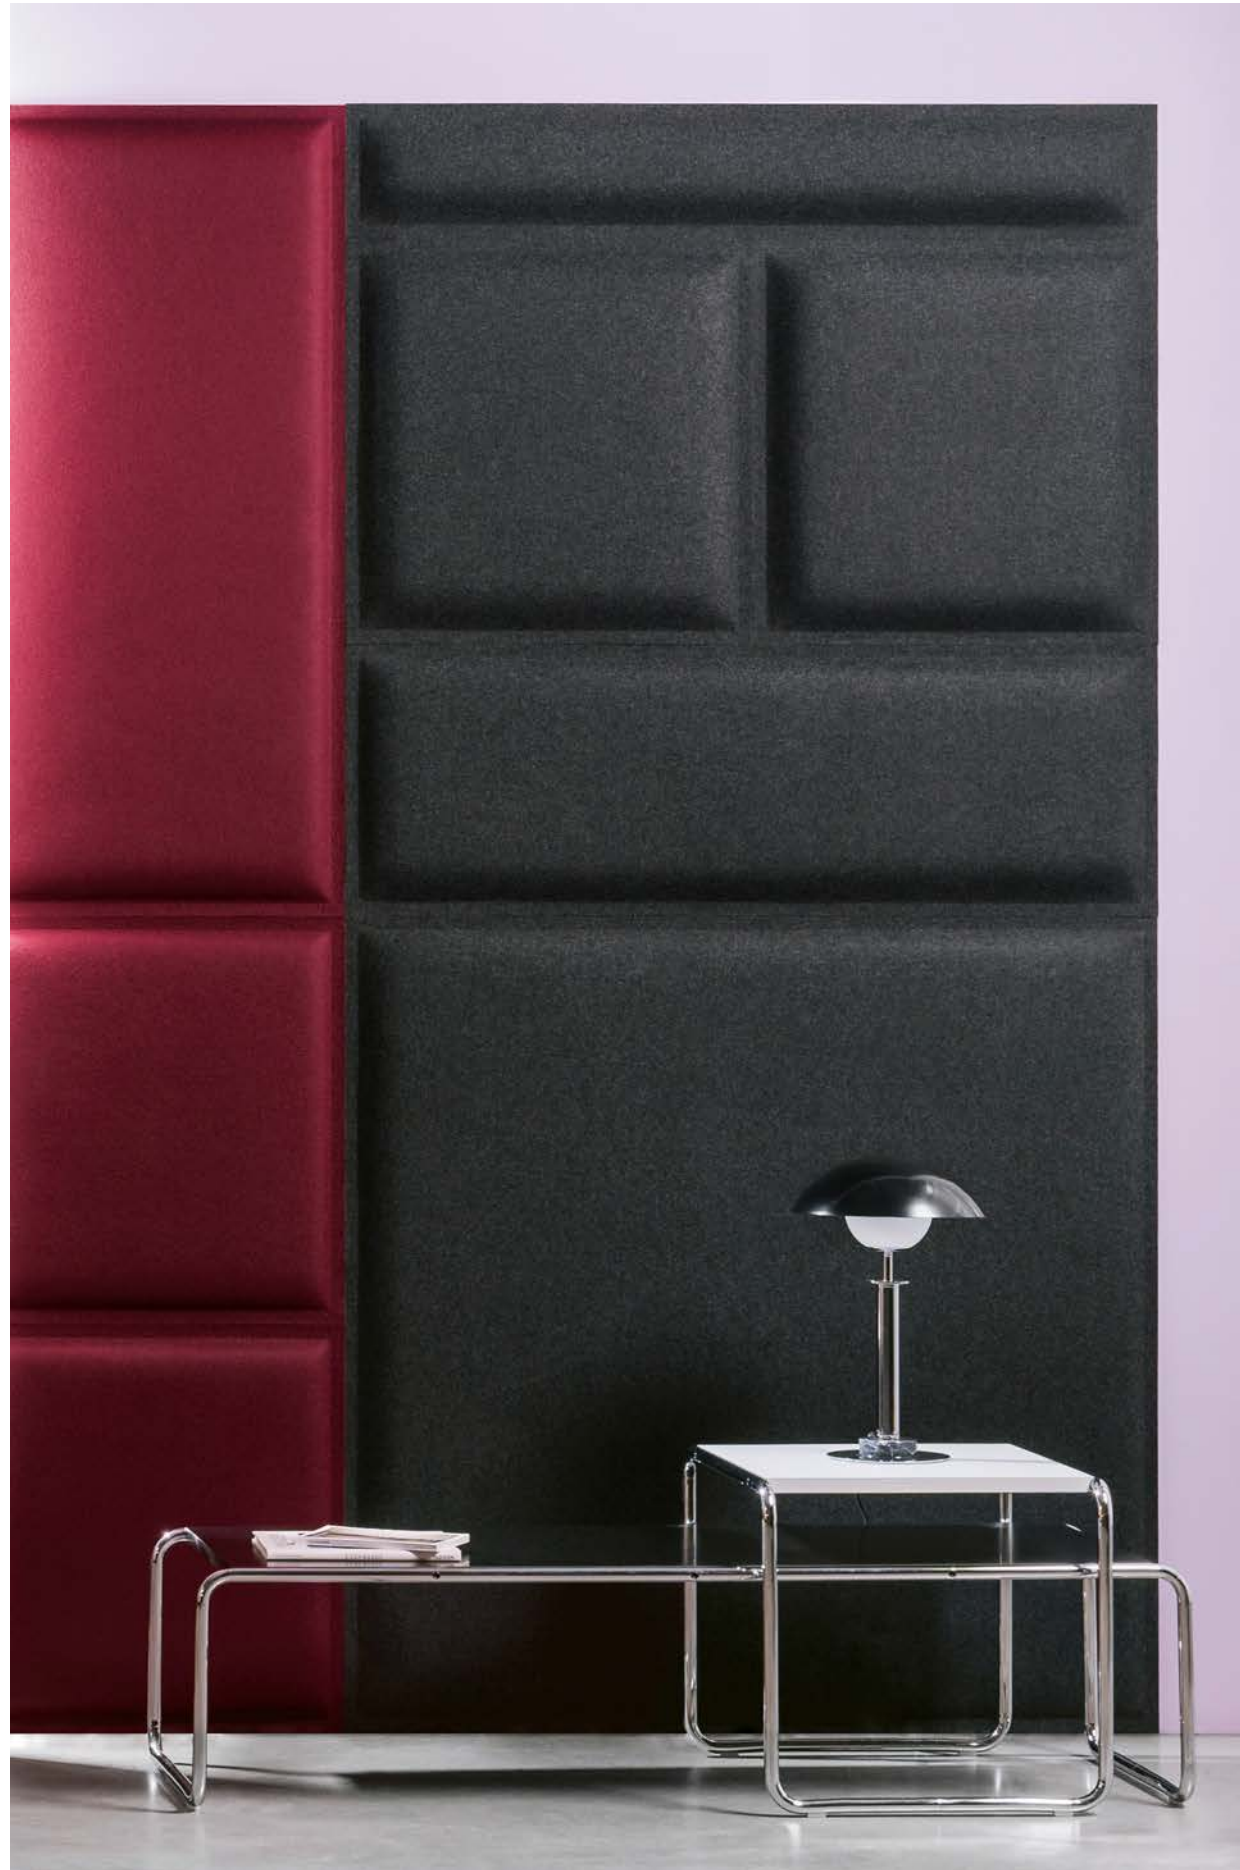

Basalt

Solid underlying for any focus-driven space. Basalt was designed to strongly support and enhance. Creating the wall envisioned with no limits moulded into the idea of Basalt – just like lava after eruption hardening into rocks of various shapes.

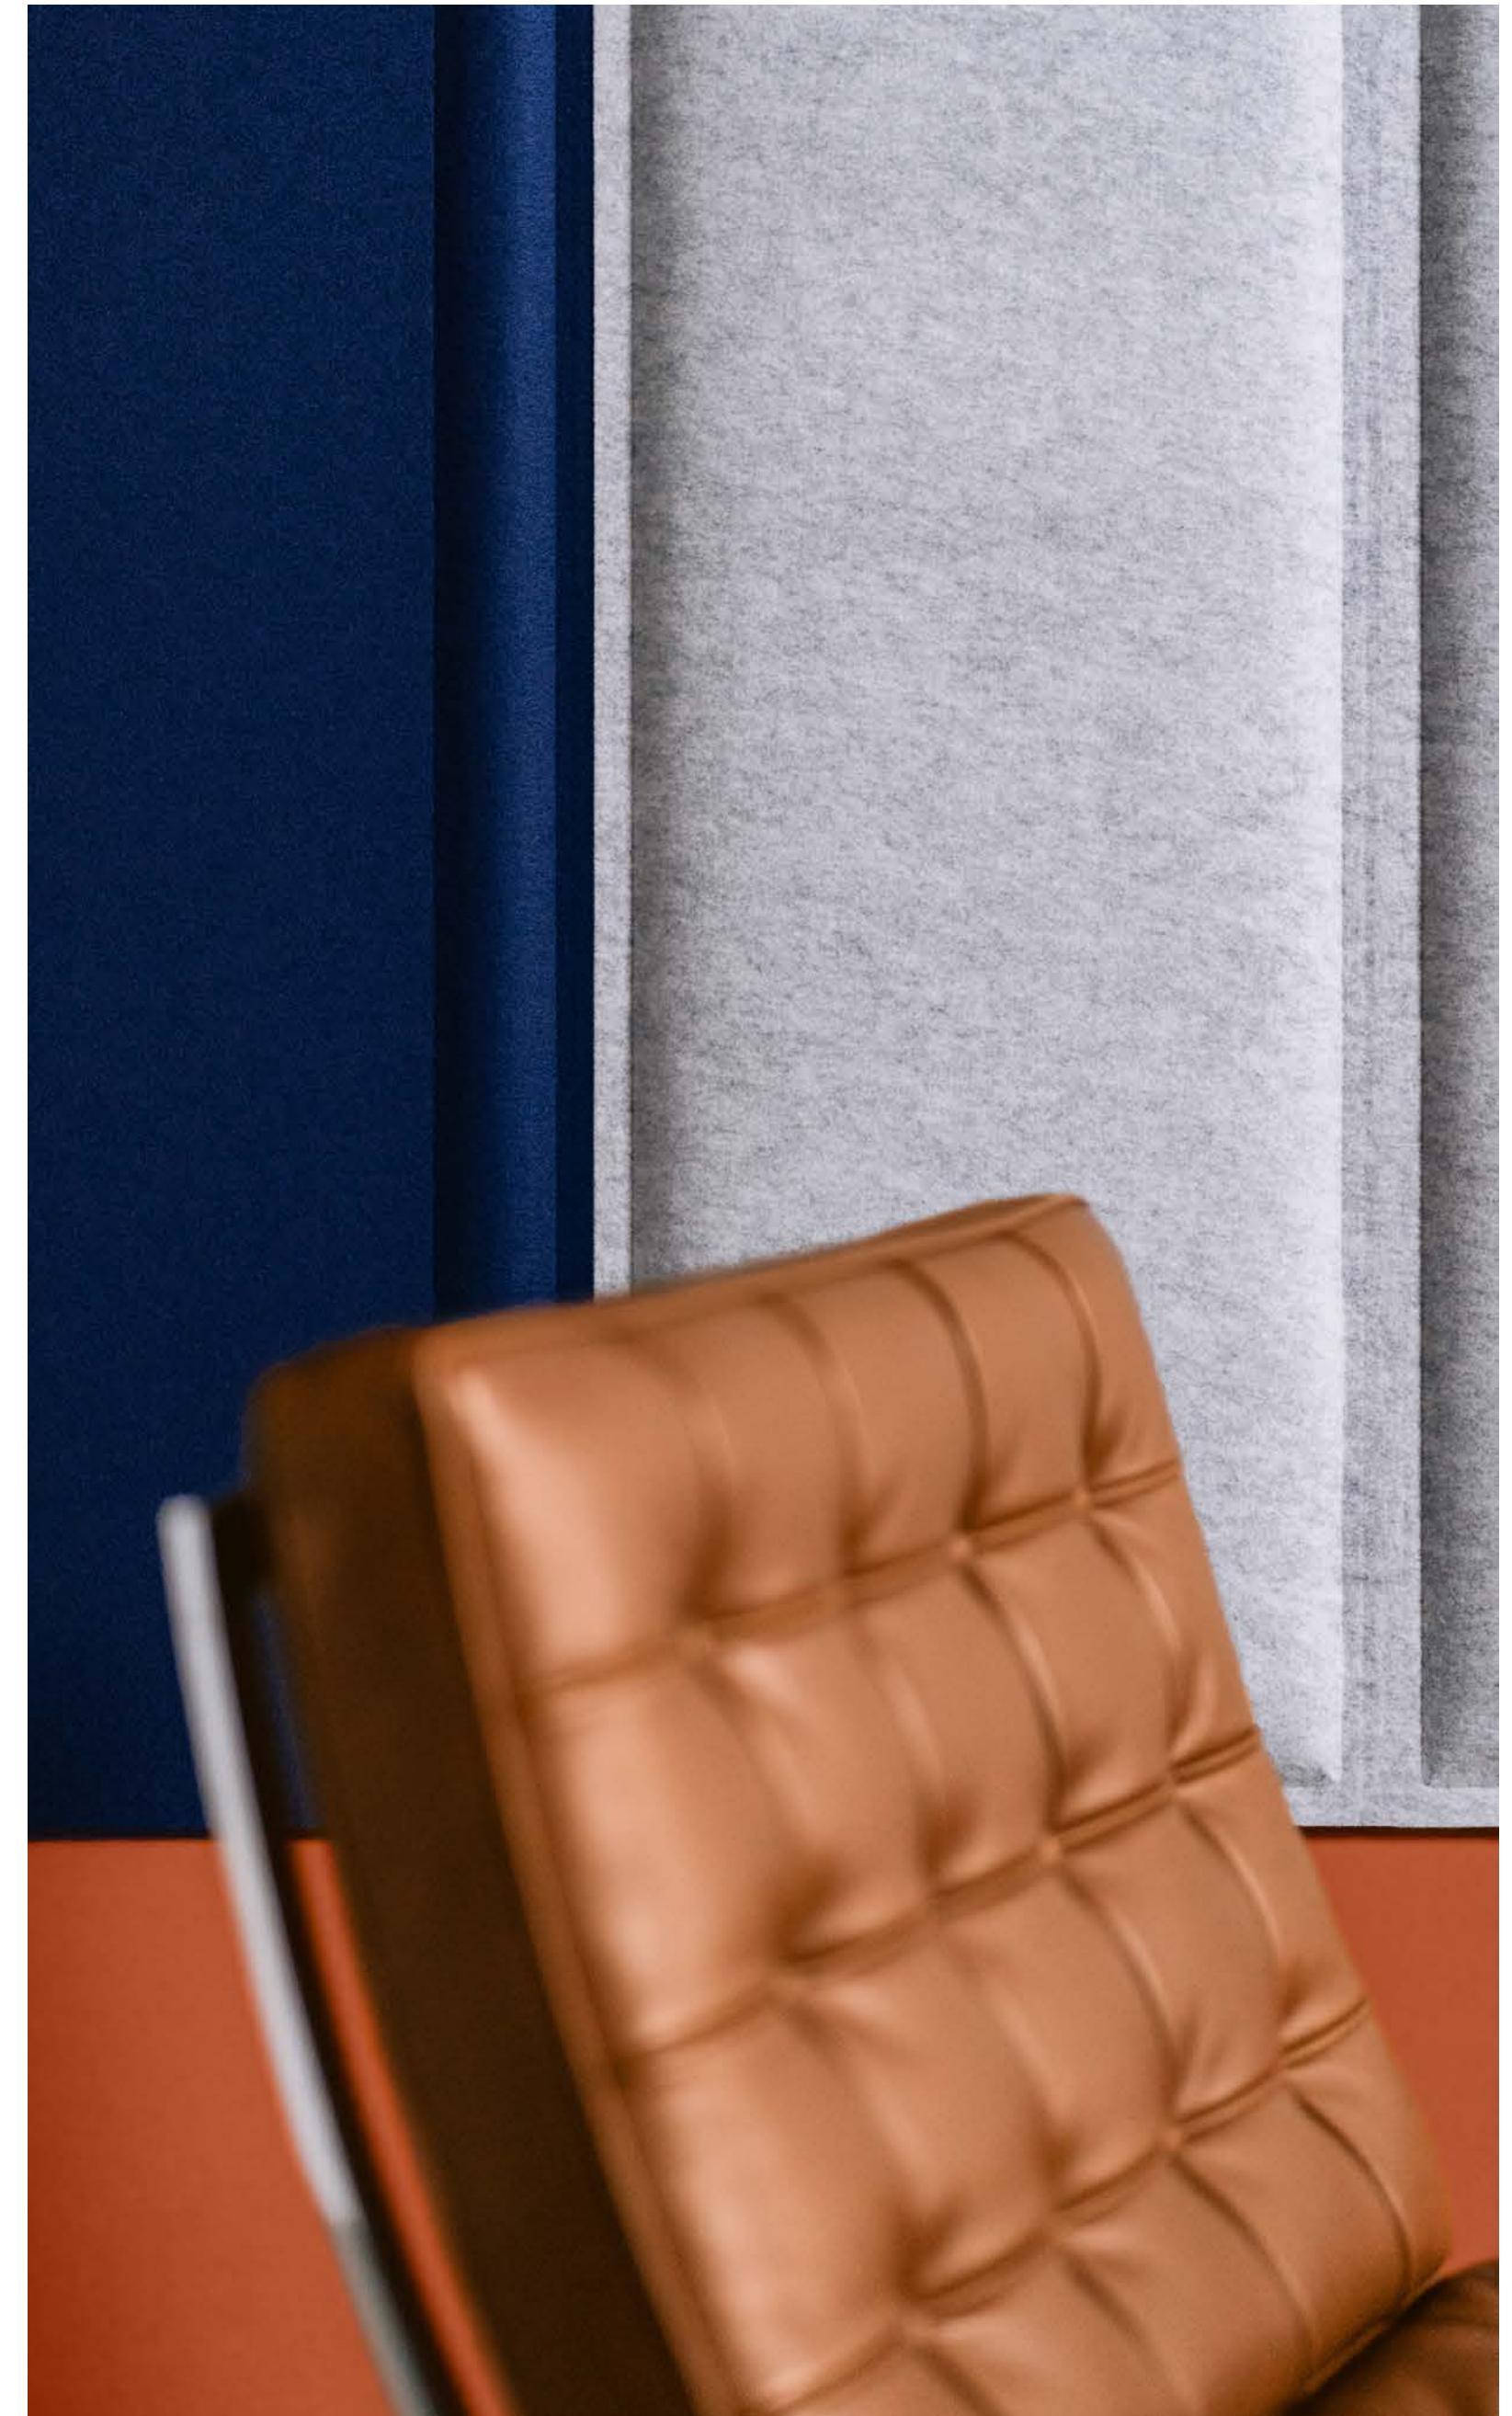

*Modular, sturdy and perfectly fitted
tool for creators who need reliable
enhancement of any space.*

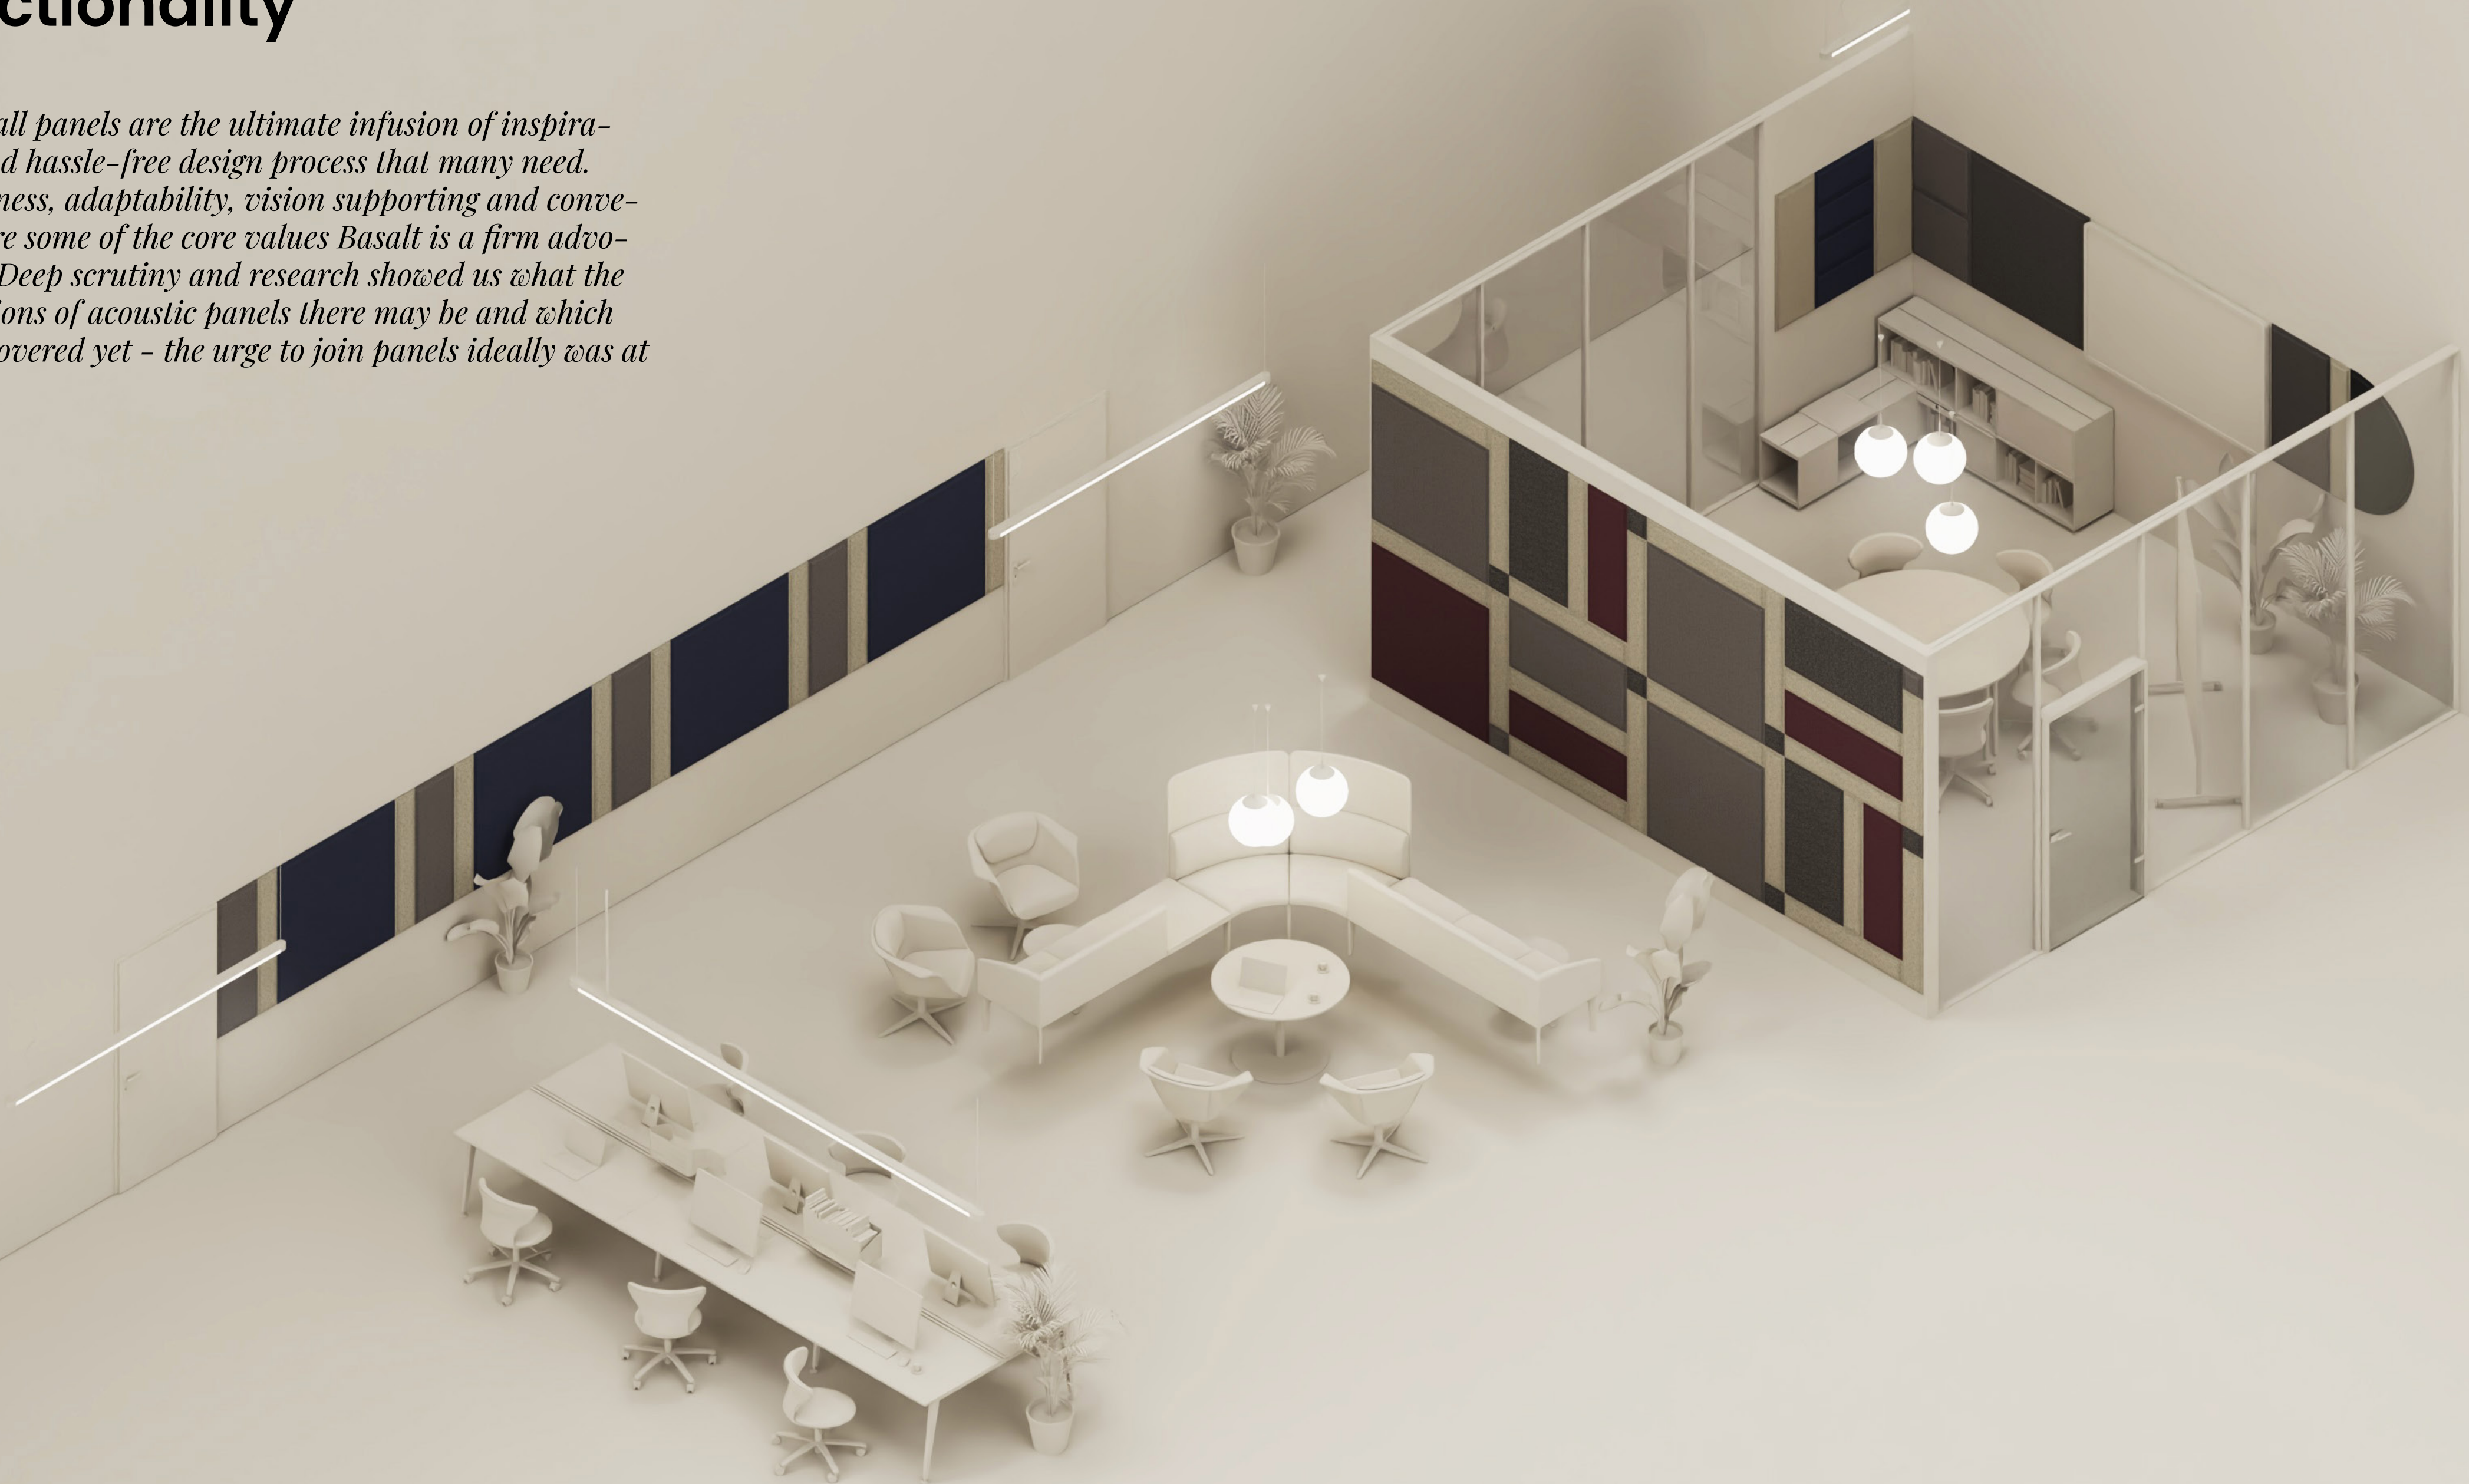

Designed by Aleksandra Mętlewicz

- Basalt and Colline complement each other which adds a function of better arrangement versatility
- Geometric and timeless shapes of Basalt fit into any space
- 90° corners and easy assembling allow for convenient and seamless joining the panels (including our other products)

Functionality

Basalt wall panels are the ultimate infusion of inspirational and hassle-free design process that many need. Timelessness, adaptability, vision supporting and convenience are some of the core values Basalt is a firm advocate for. Deep scrutiny and research showed us what the expectations of acoustic panels there may be and which are not covered yet – the urge to join panels ideally was at the top.

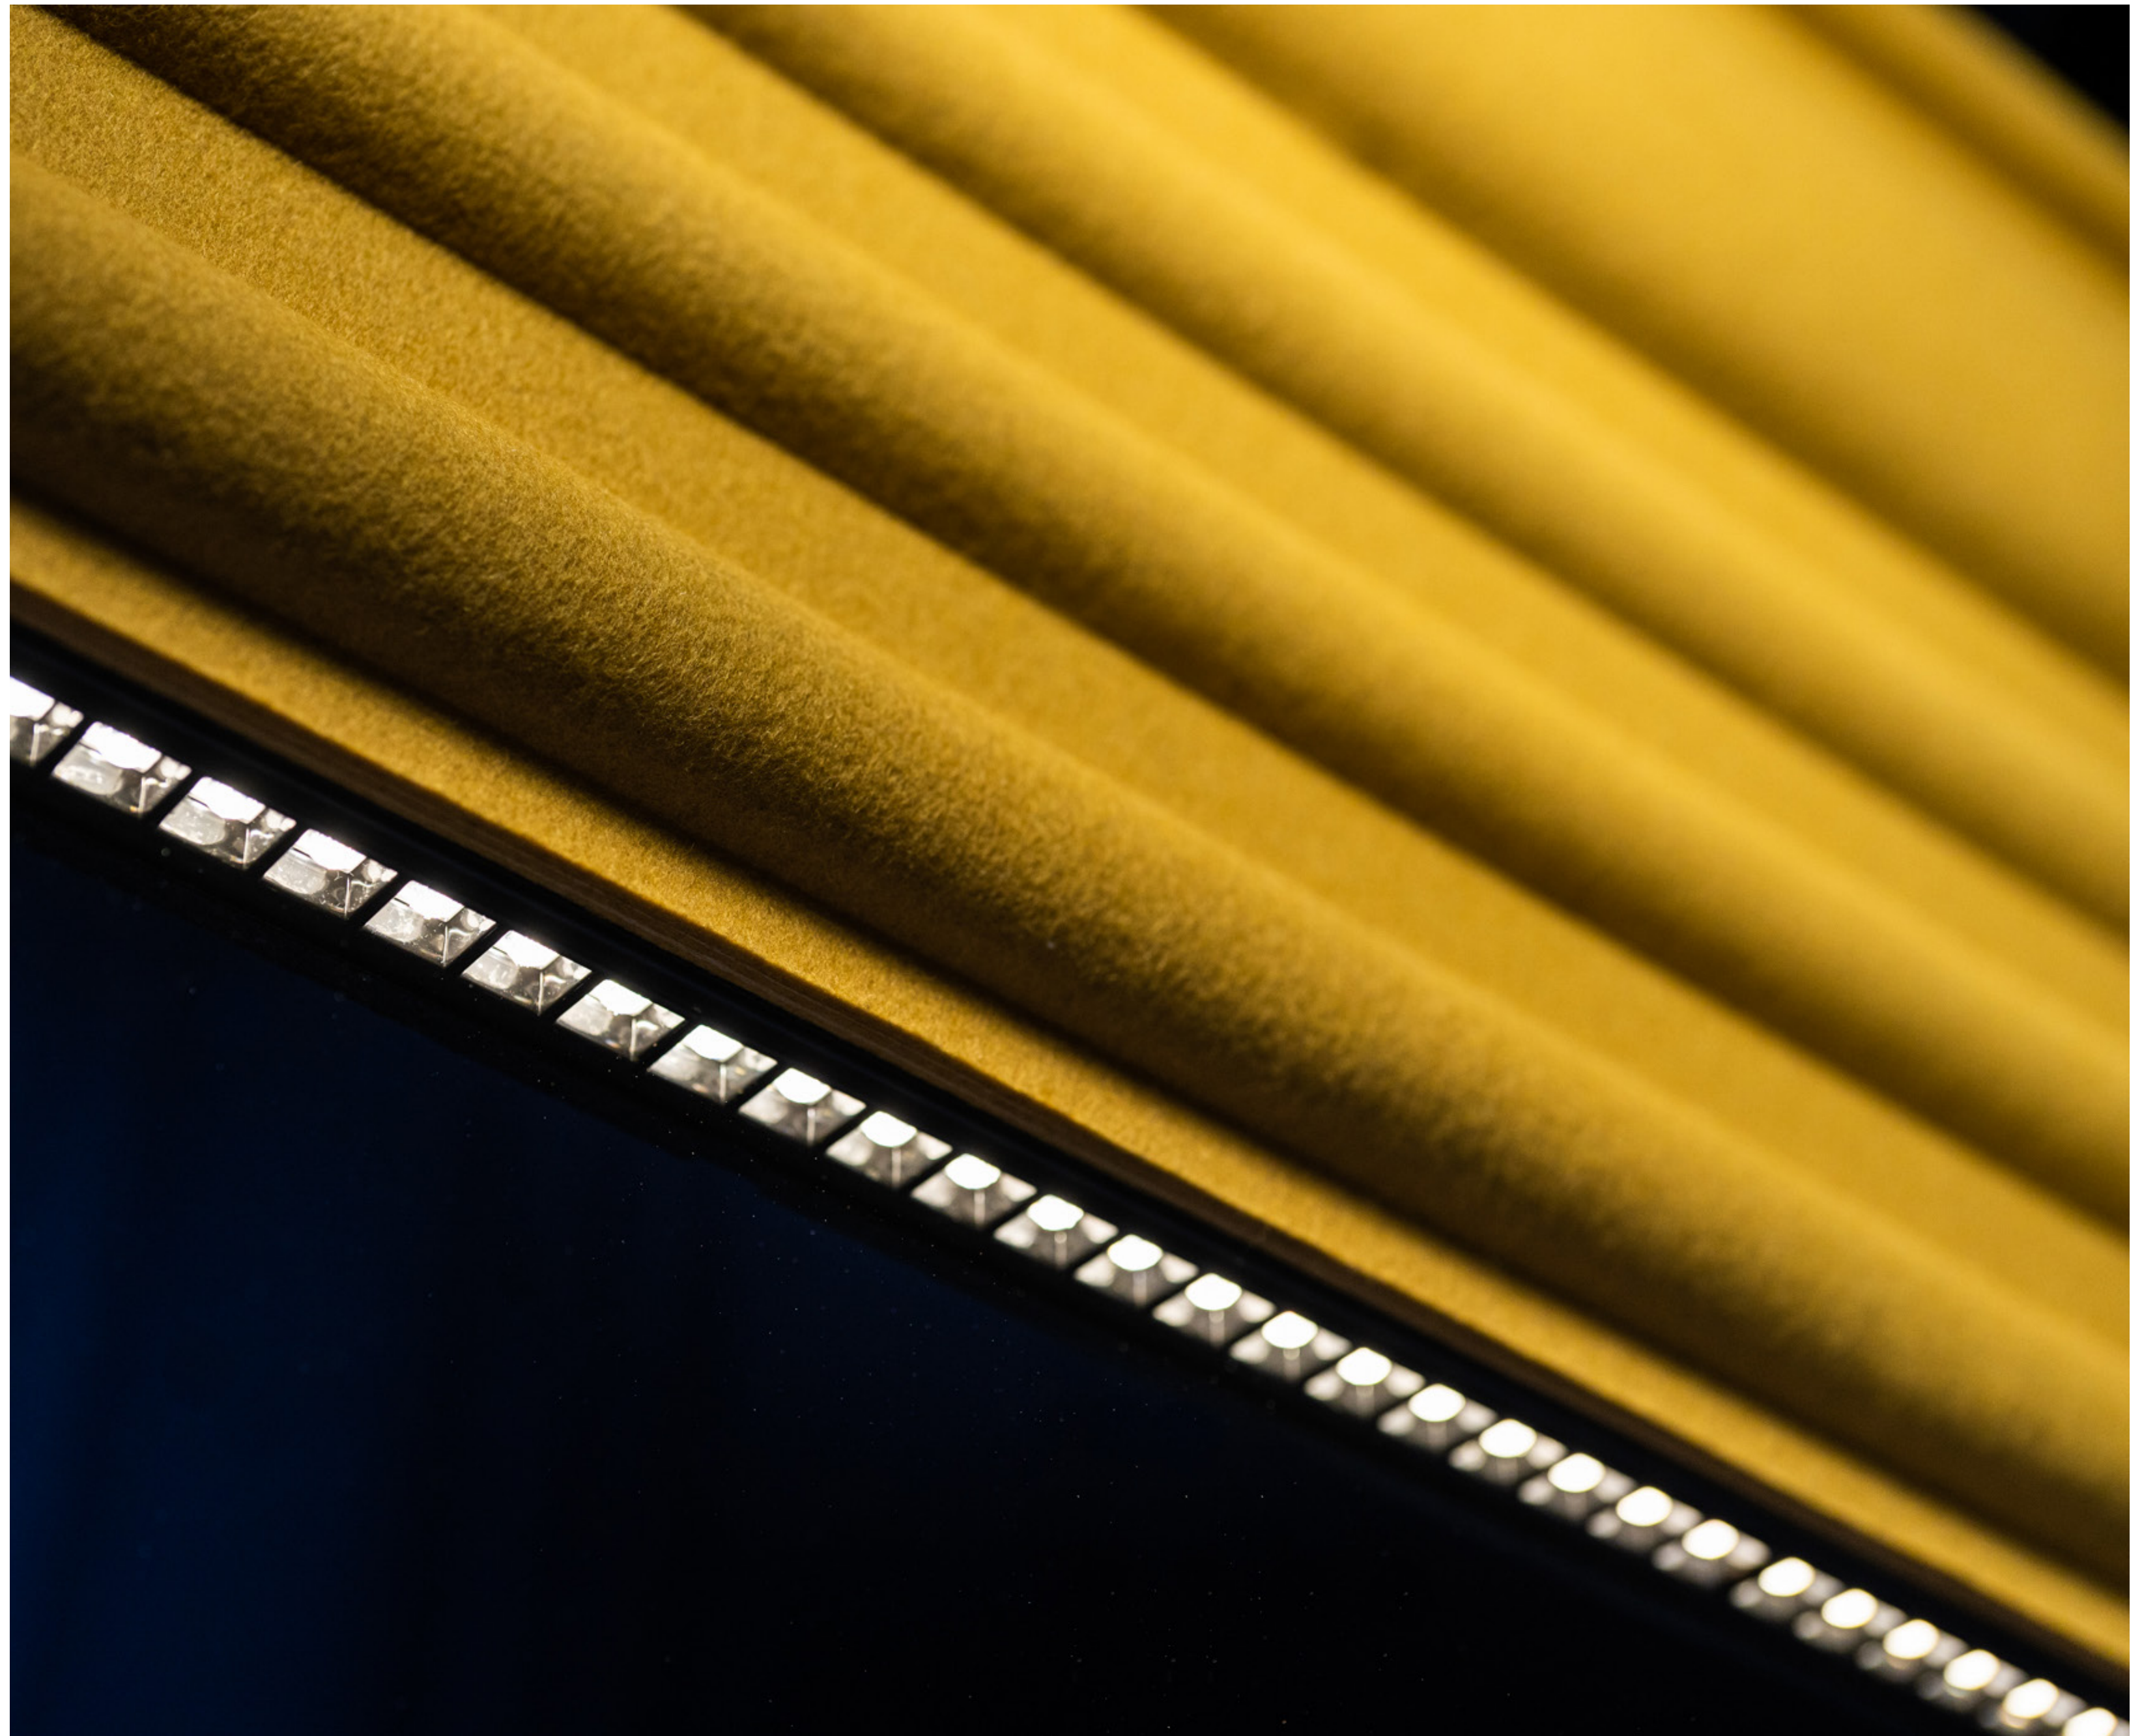

Colline x Terrano

A multifunctional acoustic lamp portraying a unique design inspired by nature and modern art. Two in one as the most utilitarian and aesthetically pleasing object which enriches any kind of space.

reddot winner 2023

*Designed to create spaces favourable
for both work and rest time.*

Desinged by Aleksandra Mętlewicz

- Wide spectrum of choices while arranging. Different colours and type of felt or a RAL finish of metal elements enrich the personalisation process
- The panel provides sensory-friendly lighting without the glare effect, while still keeping the high quality of sound insulation
- The light is based on energy-saving (50%) LED modules that emit light in two colors 4000K or 3000K (on request). It is also available with DALI control, enabling the light to be set according to the outside conditions

Handy Bag

The Handy Bag is perfect for carrying all of your office essentials. An easy way to organize your desk. From meeting to meeting.

- Thoughtful and designed details
- Choice of natural materials: felt and wood
- Possibility to engrave any claim or logo
